

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (Sep 2025)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00140/25	France	Keyring (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Withdrawal of the product from the market
OR/00141/25	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Recall of the product from end users
OR/00143/25	France	Soft toy (Country of Origin: China)		Choking The fibrous material of the toy (fur) is easily accessible. A small child could put this material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Recall of the product from end users
OR/00144/25	Hungary	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
OR/00146/25	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in the mouth and choke. The product does not comply with the requirements of the	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Toy Safety Directive, nor with the European standard EN 71-1.	
OR/00147/25	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Recall of the product from end users
SR/03122/25	Sweden	Soft toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead and cadmium (measured values up to 83.5% and 0.36% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
SR/03128/25	Germany	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes and nose) that can be easily detached. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/03133/25	Poland	Plastic toy set (Country of Origin: China)		Choking, Damage to Sight, Injuries The suction cup of the projectiles can easily detach. A child may put them in the mouth and choke. In addition, a projectile can hit a child's eye causing injuries and damage to sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03137/25	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values 4.51% and 0.47% by weight, respectively). These phthalates may harm the health of children by causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/03140/25	Poland	Fabric toy book (Country of Origin: China)		Choking The product has a protruding part (red plastic attachment handle). A child could put it into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Making the marketing of the product subject to prior conditions
SR/03141/25	Poland	Toy gun set (Country of Origin: China)		Choking Small parts (foam projectiles) can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/03154/25	Sweden	Children digital camera (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 76% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Removal of this product listing by the online marketplace
SR/03158/25	Poland	Tricycle (Country of Origin: China)		Entrapment, Injuries The mechanical strength of the tricycle is inadequate and it may dismantle during use, leading to injuries. There are accessible gaps between moving parts of the tricycle. A child's leg may become trapped there and be injured.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/03160/25	Poland	Soft toy (Country of Origin: China)		Choking The toy has small parts (plastic strings connecting the hat to the animal's head) which can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/03162/25	Poland	Baby teether (Country of Origin: China)		Choking A small part (plastic ball with attached cord) can easily detach. A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/03165/25	Poland	Plastic toy (Country of Origin: China)		Choking Small parts (plastic wings) can easily detach. A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/03166/25	Germany	Soft toy (Country of Origin: China)		Choking The toy has small parts that can be easily detached (eyes). As a result, a small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/03184/25	Poland	Soft toy (Country of Origin: China)		Choking, Strangulation The electrical cables are easily accessible because the compartment is only protected with a velcro fastener. These cables may form a loop large enough for a small child to wrap the wires around its neck, which may lead to strangulation. Additionally, the fibrous stuffing	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				material of the toy is also easily accessible for the same reason. A small child could put stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/03187/25	Poland	Plastic interactive toy (Country of Origin: China)		"Choking" The product has small parts (plastic "ears" made of rubber-like material) which can easily detach. A child may put these in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1."	Import rejected at border
SR/03208/25	Hungary	Toy doll set (Country of Origin: China)		Chemical The product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 31% and 0.18% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/03210/25	Hungary	Bath toy (Country of Origin: China)		Chemical, Choking The product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 30% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. In addition, small plastic parts (squeaking element) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the REACH Regulation nor with the European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03225/25	Poland	Toy whistle set (Country of Origin: China)		Choking, Damage to hearing The whistle is a small part. A small child may put it in the mouth and choke. Moreover, the sound pressure level produced by the toy is too high (measured value up to 118.9 dB). This could lead to permanent or partial hearing loss. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03228/25	Sweden	Cradle (Country of Origin: China)		Entrapment, Suffocation The cradle's swinging motion is excessive, which can cause a child to roll over and become unable to return to a supine position, potentially leading to suffocation. Additionally, the distance between the frame and body of the crib is too small, posing a risk of finger entrapment. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1130.	Recall of the product from end users
SR/03229/25	France	Toy chef's hat (Country of Origin: Vietnam)		Burns The toy hat is highly inflammable and the flame propagation is too high. It may catch fire if worn close to an ignition source, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Recall of the product from end users
SR/03241/25	Sweden	Cradle (Country of Origin: Unknown)		Asphyxiation, Entrapment, Suffocation The cradle exceeds the maximum permissible tilt angle/sideway angle. If a child rolls over, it can be unable to return to a supine position and its nose and mouth can be obstructed, causing suffocation. If the pressure is on its chest, there is also a risk of asphyxiation. Moreover, the distance between the crib and the frame is too small, which could lead to the child having a finger entrapped between them. Additionally, the wheels can easily unlock, which could lead to unintended move of the	Recall of the product from end users

				crib, which could cause that the child has its limbs entrapped in it. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1130.	
SR/03243/25	Poland	Soft toy (Country of Origin: China)		Choking Small parts (metal ring and right hand) can easily detach. As a result, a small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/03247/25	Poland	Soft toy (Country of Origin: Peru)		Choking The toy has small parts (plastic eyes) that can be easily detach. A small child may put them into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/03255/25	France	Musical toy (Country of Origin: Hong Kong)		Choking The toy contains small parts that can easily detach (the hen figurine). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/03264/25	UK	Baby walker (Country of Origin: China)		Choking The product has small parts (metal bell) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Destruction of the product
SR/03265/25	UK	Sensory toy set (Country of Origin: UK)		Strangulation The wooden rainbow ring component of the toy set features a long ribbon. This ribbon can become wrapped around a baby's neck during various activities, leading to strangulation. The	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				product does not comply with the requirements of the Toy Safety Directive.	
SR/03276/25	UK	Children's mask (Country of Origin: China)		Injuries The product has an eye shield which can easily detach. Once the shield is detached, two protruding posts and screws are present at or very close to the user's eye level. These screws could contact the eyes or soft skin area during use, causing injuries to the user. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/03286/25	UK	Soft toy (Country of Origin: Peru)		Choking The product has small parts (plastic eyes) that can easily detach. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/03287/25	Lithuania	Soft toy (Country of Origin: China)		Strangulation The product has long functional cords with free ends. These cords can become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03288/25	Spain	Playmat (Country of Origin: China)		Choking The tiles of the toy can easily break and form small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
SR/03289/25	UK	Musical toy (Country of Origin: China)		Choking The product has small parts (foam arch ends and assembly screws) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03308/25	Ireland	Radio-controlled toy car (Country of Origin: Unknown)		Cuts The product contains sharp edges and parts that may be accessible to the user, creating a risk of cuts. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/03317/25	France	Children's sandals (Country of Origin: China)		Choking Small parts can easily detach (sandal buttons). As a result, a small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03320/25	Hungary	Toy rattle set (Country of Origin: China)		Choking The product has small parts (balls and monkey's face) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03321/25	Hungary	Toy rattle set (Country of Origin: China)		Choking The product has small parts (koala bear) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Recall of the product from end users
SR/03327/25	France	Felt-tip pens (Country of Origin: China)		Choking The product contains removable parts (the nibs of the pens) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03328/25	UK	Puzzle toy (Country of Origin: China)		Choking Small parts (the puzzle pieces) can easily detach. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/03329/25	France	Bottle (Country of Origin: China)		Choking The product contains small parts that can easily detach (the sealing plug). Small children may put them in their mouth and choke. The product does not comply with the General Product Safety Regulation.	Recall of the product from end users
SR/03331/25	Lithuania	Toy pushchair (Country of Origin: China)		Injuries The pushchair is not sufficiently resistant to load. As a consequence, it can easily collapse and a child may fall, leading to injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03338/25	France	Soft toy (Country of Origin: China)		Choking The toy contains small parts that can easily detach (the eyes). Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03339/25	Europe	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 705.4 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03340/25	Europe	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1181 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
SR/03348/25	Ireland	Activity toy (Country of Origin: China)		Strangulation The toy set features a long cord. This cord can become wrapped around a child's neck during various activities, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/03362/25	Europe	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 940 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
SR/03369/25	France	Keyring (Country of Origin: China)		Choking The product has a small part that can easily detach (the metal ring). A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03376/25	Europe	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 910 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the	Ban on the marketing of the product and any accompanying measures

				requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	
SR/03378/25	Ireland	Balloon pumper (Country of Origin: China)		Injuries The filling pressure may increase upon pumping, and the product might rupture causing a risk of injuries. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/03384/25	Sweden	Inflatable swim ring (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and di-'isononyl' phthalate (DINP) (measured values: 19.4% and 0.14% by weight, respectively). These phthalates may harm the health by causing possible damage to the reproductive system. Moreover, DINP may cause possible damage to the liver. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/03389/25	Ireland	Wooden toy (Country of Origin: Unknown)		Choking The product has small parts (the round components) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Sep 2025)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
25-456	USA	URMYWO Baby Loungers (Country of Origin: China)		Suffocation and Fall Hazard URMYWO Baby Loungers Recalled Due to Risk of Serious Injury or Death from Suffocation and Fall Hazard; Violates Mandatory Standard for Infant Sleep Products; Sold on Amazon by Pomona The baby loungers violate the mandatory standard for Infant Sleep Products because the sides are shorter than the minimum side height limit to secure the infant; the sleeping pad’s thickness exceeds the maximum limit, posing a suffocation hazard; and an infant could fall out of an enclosed opening at the foot of the lounger or become entrapped. The portable loungers do not have a stand, posing a fall hazard. These violations create an unsafe sleeping environment for infants, posing a risk of serious injury or death.	Consumers should stop using the baby loungers immediately and contact Pomona for a full refund. Consumers should remove the sleeping pad, cut up the sides of the baby loungers and the sleeping pad and email a photo of the destroyed lounger to urmyworecall@yundnetwork.com to obtain a full refund.
25-461	USA	Children’s Wooden Cactus Toys (Country of Origin: China)		Choking Hazard Shierdu Children’s Toys Recalled Due to Risk of Serious Injury or Death from Choking Hazard; Violates the Small Parts Ban; Sold on Amazon by Yiwu Shiyi Trading The recalled toy is intended for children under three years of age and contains	Consumers should immediately stop using the recalled toys and contact Yiwu Shiyi Trading for a full

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				small parts, which violates the small parts ban, posing a deadly choking hazard.	refund. Consumers will be asked to throw the product away and send a photo of the disposed product to yizhao2025@outlook.com.
25-462	USA	In My Jammers Button Up Flare Pajama Sets (Country of Origin: China)		Burn Hazard The recalled children's pajama sets violate mandatory standards for children's sleepwear flammability, posing a risk of burn injuries to children.	Consumers should stop using the recalled pajama sets immediately and contact In My Jammers for a full refund or store credit. Consumers should destroy the pajamas by cutting them in half, then take a photo of the destroyed pajamas and email it to recall@inmyjammers.com, then dispose of the pajamas.

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
25-471	USA	Youbeien Crib Mobiles (Country of Origin: China)		To Risk of Serious Injury or Death Youbeien Crib Mobiles Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates the Mandatory Toy Standard for Batteries; Sold on Amazon by GKKBSJ The recalled toys violate the mandatory standard for toys containing button batteries because the compartment that holds the batteries in the remote can be accessed without the use of a common household tool. If button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, including internal chemical burns and death.	Consumers should immediately stop using the recalled toy and contact GKKBSJ for a refund. Consumers will be asked to throw away the product and send a photo of the disposed product to gkkbsjtoys@outlook.com to receive a full refund. If consumers wish to continue using the crib mobile, they can throw away only the remote and send a photo of the disposed remote to gkkbsjtoys@outlook.com to receive a refund of \$8.

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
25-472	USA	YooxArmor Multi-Purpose Kids' Helmets (Country of Origin: China)		To Risk of Serious Injury or Death YooxArmor Multi-Purpose Kids' Helmets Recalled Due to Risk of Serious Injury or Death from Head Injury; Violates Mandatory Standard for Bicycle Helmets; Sold on Amazon by YooxArmor The recalled kids' helmets violate the mandatory safety standard for bicycle helmets because the helmets do not comply with the impact attenuation, positional stability, labelling and certification requirements. The helmets can fail to protect the user in the event of a crash, posing a serious risk of injury or death due to head injury.	Consumers should immediately stop using the recalled kids' helmets and contact YooxArmor for a full refund. Consumers should destroy the recalled helmet by cutting the straps off the helmet. Consumers can upload photos of the helmet with the straps cut off to service @yooxarmor.com to obtain a refund.
25-473	USA	LXDHSTRA Baby Loungers (Country of Origin: China)		Suffocation and Fall Hazards LXDHSTRA Baby Loungers and Crib Bumpers Recalled Due to Risk of Serious Injury or Death from Suffocation and Fall Hazards; Violates Federal Standard for Infant Sleep Products and Federal Crib Bumper Ban; Sold on Amazon The recalled baby loungers violate the mandatory standard for Infant Sleep Products. The sides are too low to contain an infant. The sleeping pad is too thick, posing a suffocation hazard. The enclosed openings at the foot of the loungers are	Consumers should immediately stop using the recalled baby loungers and crib bumpers and contact LXDHSTRA for a full refund. Consumers should remove the foam and

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				wider than allowed, posing a fall hazard and an entrapment hazard to infants. Also, the baby loungers do not have a stand, posing a fall hazard if it is used on elevated surfaces. These violations create an unsafe sleeping environment for infants and can cause death or serious injury to infants. In addition, the recalled baby loungers come with crib bumpers, which are banned by the Federal Safe Sleep for Babies Act because the padded crib bumpers can obstruct breathing, posing a risk of serious injury or death to infants from suffocation.	pads from the baby lounger's cover and cut the cover, foam, pad, and crib bumper in half. Consumers should email photos of the destroyed baby lounger and crib bumper to lxdhstrareca11@gmail.com to obtain a full refund.
25-474	USA	EnHomee 13-Drawer Dressers (Country of Origin: China)		Over and Entrapment Hazards EnHomee Dressers Recalled Due to Risk of Serious Injury or Death from Tip-Over and Entrapment; Violates Mandatory Standard for Clothing Storage Units; Sold by EnHomee Direct The recalled dressers are unstable if they are not anchored to the wall, posing tip-over and entrapment hazards that can result in serious injuries or death to children. The dressers fail to meet the mandatory standard required by the STURDY Act.	Consumers should immediately stop using the recalled dressers if they are not anchored to a wall and place them in an area where children cannot access them. Contact EnHomee for instructions on how to identify affected units and dispose of the dressers to receive a full

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					refund. Consumers must submit a photo of the disposed dresser to enhomeestore@gmail.com .
25-476	USA	Hoovy Cooling Gel Insert Pads for Car Seats and Strollers (Country of Origin: China)		Burn Hazard AMTRADING Recalls Hoovy Cooling Gel Insert Pads for Car Seats and Strollers Due to Burn Hazard The cooling gel pads can become hot if left in the sun or a hot car, posing a burn hazard to young children.	Consumers should immediately stop using the recalled Cooling Gel Insert Pad and contact AMTRADING for instructions on receiving a full refund. Consumers can go to https://hoovyrproducts.com/pages/product-recall for instructions on how to register for the recall and to dispose of the recalled pad.
25-477	USA	“RELIEVE” Numbing Cream (Country of Origin:		Risk of Serious Injury or Death Mad Rabbit Recalls “RELIEVE” Lidocaine Numbing Cream Due to Risk of Serious Injury or Death from Poisoning to Young Children; Violates Mandatory Standard for Child-Resistant Packaging	Consumers should immediately secure the recalled numbing

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
		United States)		The numbing cream contains lidocaine, which must be in child-resistant packaging, as required by the Poison Prevention Packaging Act. The numbing cream's packaging is not child-resistant, posing a risk of serious injury or death from poisoning, if the contents are swallowed by young children.	cream out of the sight and reach of children and contact Mad Rabbit via email or online for a free child-resistant lid to store the products. Once the product is secured, consumers can use the product, as directed.
25-478	USA	Autoez Bamboo Shades (Country of Origin: China)		Strangulation and Entanglement Hazards Autoez Brand Bamboo Shades Recalled Due to Strangulation and Entanglement Hazards and Risk of Serious Injury or Death; Violates Federal Rule for Window Coverings; Sold on Walmart.com The recalled shades have long operating cords and accessible inner cords that can cause death or serious injury to children, due to strangulation and entanglement hazards. The shades violate the federal rule for window coverings and present a substantial product hazard. In addition, the shades also violate labelling requirements for window coverings.	Consumers should immediately stop using the recalled shades and contact Autoez for a full refund. Consumers should remove the shades, cut the operating cord, write the word "Recalled" on the shades and dispose of the product in the garbage. Consumers

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					should send a photograph of the destroyed window shades in the garbage to Autoez_recall@163.com.
25-479	USA	Persilux Zebra Blinds (Country of Origin: China)		Strangulation and Entanglement Hazards Persilux Brand Zebra Blinds Recalled Due to Strangulation and Entanglement Hazards and Risk of Serious Injury or Death; Violates Federal Rule for Window Coverings; Sold on Amazon The recalled blinds have long operating cords that can cause death or serious injury to children, due to strangulation and entanglement hazards. The blinds violate the federal rule for window coverings and present a substantial product hazard. In addition, the blinds also violate labelling requirements for window coverings.	Consumers should immediately stop using the recalled blinds and contact Persilux for a free repair kit, including shipping. The repair kit consists of a replacement operating cord wand and installation instructions. Consumers should remove the blind, cut and remove the operating cord and send a photograph of the blinds, with the operating cord removed, to recall@persiluxhome.com.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australian Toys / Children’s Products

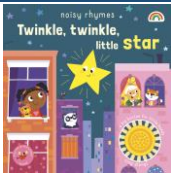

ACCC Recall List (Sep 2025)

PRA No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
2025/20598	Australia	Fantastic Four Illuminated Cups (Country of Origin: China)		At Risk of Choking These products don't comply with the mandatory standards for products containing button/coin batteries. The screw in the battery covering can be removed. This could allow children access to the button/coin battery. The screw and/or battery covering could also be lost when replacing the battery. The products are missing warning information about: - the dangers of button/coin batteries to children - What to do when a person suspects someone has swallowed or placed a button/coin battery inside any part of their body. Children are at risk of choking, serious injury or death if they swallow or place button/coin batteries inside their bodies. If you suspect a child has swallowed or inserted a button/coin battery: - Call Triple Zero (000) if a child is having any difficulty breathing. - Call the Poisons Information Centre immediately on 13 11 26, available 24 hours a day. They can direct you to an appropriate medical facility. Early action can save lives. Do not wait for symptoms to develop.	Immediately discontinue use and keep out of reach of children. Do not remove the batteries from the product and do not dispose of the cups. Contact Golden Link Australia Pty Ltd via the below details to arrange for the product to be returned for either a full refund or to register for a collectable replacement cup. Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

Recall Summary – Japanese Toys / Children’s Products
