

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (January 2026)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00003/26	France	Key ring with soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
OR/00005/26	Poland	Toy scooter (Country of Origin: China)		Injuries The diameter of the front wheels of the scooter is too small (measured value: 116 mm), which can lead the scooter's wheel to become stuck on an uneven surface and the child to fall, suffering injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
OR/00010/26	France	Air hockey table (Country of Origin: China)		Burns The batteries may overheat, which may cause burns to users. The product does not comply with the requirements of the Toy Safety Directive.	Temporary ban on the supply, offer to supply, and display of the product
SR/00006/26	UK	Playmat (Country of Origin: China)		Choking The product has small parts (poles) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/00038/26	France	Key ring with soft toy (Country of Origin: China)		Choking The product has small parts that can easily detach (key ring). A small child could put it in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00041/26	Poland	Bow toy set (Country of Origin: China)		Choking The product has small parts (the projectiles' suction cups), which may easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00053/26	Poland	Plastic toy set (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (up to 3.8% by weight). This phthalate may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
SR/00065/26	Germany	Toy water gun (Country of Origin: Ireland)		Choking The product contains small parts (webbing hook and hose connection) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00078/26	Poland	Wooden toy set (Country of Origin: China)		Choking The product has small parts (yellow rattle cover) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00082/26	Poland	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes, nose, and suction cup) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00086/26	Slovenia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 12% by weight). This phthalate may harm the health of users, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/00093/26	France	Sticky hand toy (Country of Origin: China)		Strangulation The toy contains a long cord made from elastic material and can be considerably stretched during use. A child could swing the toy around the head and twist it around the neck, causing strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00103/26	Sweden	Fire fighting vehicle toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 73% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border
SR/00128/26	Slovenia	Finger toothbrush and teether (Country of Origin: China)		Choking The product has small parts (small gum pins) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace
SR/00129/26	Germany	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00131/26	Spain	Constructi- on toy (Country of Origin: China)		Choking The product contains small parts (the red wheels). A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00143/26	UK	Soft toy (Country of Origin: China)		Choking, Strangulation The product has small parts which can easily detach (dog's nose). A small child could put them into the mouth and choke. Moreover, there are no warnings to indicate that the product is supplied with a cord, which may present a strangulation hazard to young children if left unattended. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/00147/26	France	Soft toy (Country of Origin: China)		Choking, Suffocation The product contains small parts (the eyes of the dragon). A small child could put them in the mouth and choke. Furthermore, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00148/26	France	Soft toy (Country of Origin: China)		Choking The toy has protruding parts (white plastic battery housing). A small child may put it in the mouth and choke by regurgitation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warn the seller of the risks
SR/00149/26	France	Key ring with soft toy (Country of Origin: China)		Chemical, Choking The product contains small parts (the red wheels), and the fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material and/or the small parts in the mouth and choke. Moreover, the plastic material of the	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 20.35% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation, the requirements set out in the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00151/26	France	Soft toy (Country of Origin: China)		Chemical, Choking The product contains small parts (metal rings, hands and feet, plastic stone in the hair slide, decorative plastic flower) that can easily detach. A small child may put them in the mouth and choke. Additionally, the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and diisooctyl phthalate (DIOP) (measured value up to 14.5% by weight, combined). These phthalates may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation and the European standard EN 71-1.	Destruction of the product
SR/00158/26	Germany	Toy water gun (Country of Origin: China)		Choking The product contains small parts (the hose connector and the hook of the belt) that can easily detach. A small child may put them in the mouth and choke. Moreover, the product's labelling lacks the required information, which can lead the user to lack the necessary information about the dangers of the product. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00159/26	France	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00160/26	Germany	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances (NDMA and NDEA, total measured value: 1.7 mg/kg). These nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Import rejected at border
SR/00163/26	France	Baby stroller (Country of Origin: China)		Injuries The rear wheels of the stroller are not properly fixed. The stroller could flip over and cause injuries to the child. This product does not comply with the General Product Safety Regulation nor with the European standard EN 1888-1.	Removal of this product listing by the online marketplace
SR/00164/26	France	Children's water bottle (Country of Origin: China)		Strangulation The buckle could easily open, and the loose strap could strangle the child. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14350.	Removal of this product listing by the online marketplace
SR/00166/26	Germany	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 34.7% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00181/26	France	Fancy dress costume (Country of Origin: China)		Burns, Fire The costume may catch fire if worn close to an ignition source, and the child wearing it may get burned. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Warning the seller about the risks
SR/00183/26	Germany	Make-up toy set (Country of Origin: China)		Choking, Strangulation The product contains small parts (rings and bracelets) that can easily detach. A small child may put them in the mouth and choke. Furthermore, if the necklace is worn around the neck, it could form a loop and become trapped, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00185/26	France	Plush toy (Country of Origin: China)		Choking, Strangulation The fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in the mouth and choke. Moreover, the loop of the mask could become trapped around the neck of the child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00187/26	Slovenia	Toothbrush (Country of Origin: China)		Choking The product has small parts (silicone brush) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation and the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00193/26	France	Soft toy (Country of Origin: China)		Choking The toy has a small part (eye) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00194/26	Spain	Children's bicycle seat (Country of Origin: Portugal)		Injuries The effectiveness of the restraint system is inadequate, and the child may fall out of the seat and suffer injuries. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14344.	Ban on the marketing of the product and any accompanying measures
SR/00196/26	Lithuania	Toy rattle (Country of Origin: China)		Choking The toy has small parts (balls) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00210/26	France	Soother holder (Country of Origin: China)		Suffocation The product's clip does not have the required ventilation holes, which could lead to the baby suffocating. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Removal of this product listing by the online marketplace
SR/00223/26	Slovakia	LED mask (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 42.8 % by weight) and cadmium (measured value up to 0.113 % by weight). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Recall of the product from end users
SR/00225/26	France	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00227/26	Europe	Children's bicycle seat (Country of Origin: China)		Injuries The effectiveness of the restraint system is inadequate, the external edges of the seat are sharp, and the child may fall out of the seat and suffer injuries. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14344.	Withdrawal of the product from the market
SR/00228/26	Austria	Soft toy (Country of Origin: China)		Choking The toy contains small parts (hands). A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00235/26	Germany	Baby carrier (Country of Origin: China)		Injuries Due to insufficient fastening capacity of the carrier, the support is not adequate, and the baby may slip out, fall, and suffer serious injuries. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace
SR/00237/26	Spain	Baby sling (Country of Origin: China)		Choking, Strangulation The product has small parts (brand label) that can easily detach. A small child may put it in the mouth and choke. In addition, the carrying bag's perimeter and drawstring are too large. The drawstring could get tangled around the child's neck, leading to strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard 16512.	Ban on the marketing of the product and any accompanying measures
SR/00240/26	Germany	Baby carrier (Country of Origin: China)		Injuries Due to the insufficient fastening capacity of the sling, the support is not adequate, and the baby may slip out, fall, and suffer serious injuries. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00242/26	Germany	Baby sling (Country of Origin: China)		Injuries Due to the insufficient fastening capacity of the sling, the support is not adequate, and the baby may slip out, fall, and suffer serious injuries. This product does not comply with the General Product Safety Regulation nor with the European standard 16512.	Removal of this product listing by the online marketplace
SR/00243/26	France	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00246/26	Spain	Toy megaphone (Country of Origin: China)		Strangulation The strap attached to the toy has no quick-release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00251/26	France	Toy car (Country of Origin: China)		Burns, Chemical, Damage to Sight The battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. Moreover, the child may insert an object into the battery compartment, which could create a short circuit, causing the toy to heat up, leading to a risk of burns. Additionally, the LED light is too powerful. Looking directly into the light beam may damage the eyesight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Warn the seller about the danger of the product they are selling on their websites

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00256/26	Poland	Plastic toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 6.04%). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products' marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children's Products

CPSC Recall List (January 2026)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-168	USA	BabyBond Retractable Safety Gates (Country of Origin: China)		<p>Risk of Serious Injury or Death</p> <p>Infant Innovations Recalls BabyBond Retractable Safety Gates Due to Risk of Serious Injury or Death to Children from Entrapment; Violates Mandatory Standard for Gates and Enclosures</p> <p>The recalled gates violate the mandatory standard for expansion gates and expandable enclosures because a child's torso can fit through the opening between the gate and the floor, becoming entrapped, posing a risk of serious injury or death.</p>	Consumers should immediately stop using the recalled gates and contact Infant Innovations at elsie@BabyBond-global.com for instructions to return the gates to any Target store for a full refund.
26-169	USA	SARO Braided Crib Bumpers (Country of Origin: China)		<p>Risk of Serious Injury or Death</p> <p>The Kalencom Corporation Recalls SARO Braided Crib Bumpers Due to Risk of Serious Injury or Death from Suffocation; Violates Federal Crib Bumper Ban</p> <p>The recalled padded crib bumpers violate the federal ban on crib bumpers because they can obstruct an infant's breathing, posing a risk of serious injury or death, due to suffocation. This creates an unsafe sleeping environment for infants. Padded crib bumpers are banned by the federal Safe Sleep for Babies Act.</p>	Consumers should stop using the crib bumpers immediately and request a full refund in one of the following ways: For SARO Braided Crib Bumpers purchased in-store at MacroBaby in Orlando,

Consumers should immediately stop using the Giraffe Plush Toy with clip and the Llama Plush Toy with clip and return to the nearest Hobby Lobby Store for a full refund.
26-227	USA	Sunneday and Blue Bay brand 48-inch and taller above-ground pools (Country of Origin: China)		Drowning Hazard Sunneday and Blue Bay Above-Ground Pools 48 Inches and Taller Recalled Due to Drowning Hazard; Manufactured by Starmatrix Group The compression strap that surrounds the outside of the pool legs may create a foothold, allowing a child access to the pool, posing a drowning risk.	Consumers should contact Starmatrix to request a free repair kit. In the interim, consumers should ensure that children cannot access the pool unattended or drain the pool until the repair can be installed.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC's Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.
