

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (March 2026)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00022/26	Europe	Craft kit (Country of Origin: China)		Chemical The glue has an excessive concentration of toluene (measured value: 8.7% by weight). Toluene is neurotoxic if inhaled or in contact with the skin, and might also affect the unborn child. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace.
OR/00026/26	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks.
OR/00027/26	Poland	Baby stroller (Country of Origin: Unknown)		Injuries The stability of the stroller is insufficient, it may tip over on its side, leading to injuries to the child. The product does not comply with the General Product Safety Regulation.	Warning consumers of the risks.
OR/00030/26	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks.
SR/00629/26	Germany	Wooden swing (Country of Origin: Poland)		Entrapment, Strangulation The swing has openings that can cause the child to fall, and the head can be trapped in them, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Removal of this product listing by the online marketplace.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00630/26	Sweden	Key ring toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured values up to 80% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border.
SR/00631/26	Sweden	Key ring toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured values up to 56% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border.
SR/00632/26	Sweden	Key ring with push toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured values up to 57% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border.
SR/00633/26	Sweden	Key ring with toy (Country of Origin: China)		Environment The solders have an excessive concentration of lead (measured values up to 74% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00637/26	Germany	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances and nitrosamines (measured values up to 8.7 mg/kg and 4.3 mg/kg respectively). Nitrosamines can cause cancer if swallowed or through skin contact. A child could be exposed to them if they touch the product or put it in their mouth. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00638/26	Germany	Fancy-dress costume (Country of Origin: Germany)		Choking The product has small parts (eyes) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market.
SR/00646/26	Sweden	Key ring with toy (Country of Origin: China)		Environment The solders have an excessive concentration of lead (measured values up to 82% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border.
SR/00647/26	UK	Soft toy with key ring (Country of Origin: Unknown)		Choking The toy contains small parts (keyring and right foot) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.
SR/00649/26	UK	Activity toy (Country of Origin: China)		Choking The toy has small parts (from the rattle) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00653/26	Finland	Sand activity toy (Country of Origin: Unknown)		Health risk / Other The product contains asbestos fibres. Asbestos causes cancer. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.
SR/00654/26	France	Fancy-dress costume (Country of Origin: China)		Chemical The migration of chromium VI from the toy is too high (measured value: 0.05 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions, and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Removal of this product listing by the online marketplace.
SR/00657/26	Netherlands	Yoyo puffer toy (Country of Origin: China)		Health risk / Other The toy could rupture, and the filling inside could come out. The sand inside contains asbestos (measured value up to 5% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users.
SR/00660/26	Germany	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 26.2 % by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. Moreover, the product has an excessive concentration of lead (measured value up to 68.4 mg/kg by weight). Lead poses a risk to the environment. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market.
SR/00662/26	Czechia	Soft toy with key ring (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 12% by weight). This phthalate may harm health by causing possible damage to the reproductive	Withdrawal of the product from the market.

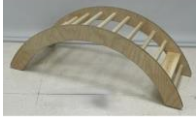

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: China)		system. The product does not comply with the requirements of the Toy Safety Directive.	
SR/00665/26	Netherlands	Sand art activity toy (Country of Origin: China)		Health risk / Other The play sand contains asbestos fibres (measured value up to 2% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users.
SR/00666/26	Germany	Textile swing (Country of Origin: China)		Entrapment, Strangulation The swing has openings that can cause the child to fall, and the head can be trapped in them, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Removal of this product listing by the online marketplace.
SR/00667/26	Germany	Textile swing (Country of Origin: Unknown)		Entrapment, Strangulation The swing has openings that can cause the child to fall, and the head can be trapped in them, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Removal of this product listing by the online marketplace.
SR/00670/26	UK	Baby sleeping bag (Country of Origin: Unknown)		Suffocation The sleeping bag has a hood, which may cover the mouth and/or nose area of the baby. Moreover, the neck opening is not secured with appropriate fasteners. This could lead the child to suffocate. The product does not comply with the General Product Safety Regulation.	Withdrawal of the product from the market.
SR/00673/26	UK	Baby sleeping bag (Country of Origin: Unknown)		Suffocation The sleeping bag has a hood, which may cover the mouth and/or nose area of the baby. Moreover, the neck opening is not secured with appropriate fasteners. These could lead the child to suffocate. The product does not comply with the General Product Safety Regulation.	Withdrawal of the product from the market.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00674/26	UK	Soft toy with key ring (Country of Origin: China)		Choking, Injuries The toy contains a small part (keyring) that can easily detach. A small child may put it in the mouth and choke. Moreover, in case of removal of the keyring, a sharp metal point becomes accessible, which may cause injuries to the user. This product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.
SR/00675/26	UK	Advent calendar (Country of Origin: China)		Cuts, Injuries One of the toys included in the calendar has a retractable blade. This can cause cuts or injuries to the user. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00676/26	France	Soft toy (Country of Origin: Hong Kong)		Cuts The toy contains a metallic foreign body, which could cause cuts to children. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1, EN 71-2, and EN 71-3.	Recall of the product from end users.
SR/00677/26	France	Fancy-dress costume (Country of Origin: China)		Choking, Entrapment, Strangulation The product has a small part (zip fastener pull tab) that can easily detach. A small child may put it in the mouth and choke. Moreover, the product has long cords in the neck area, on the chest, and on the waist. These drawstrings can become trapped during various activities of a child, leading to strangulation or injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks.
SR/00688/26	Lithuania	Plastic toy (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00689/26	Germany	Balloons (Country of Origin: China)		Chemical The material that the balloons are made of releases an excessive amount of nitrosatable substances and nitrosamines (measured values: 4.9 mg/kg and 0.7 mg/kg, respectively). Nitrosamines can cause cancer if swallowed or through skin contact. A child could be exposed to them if they touch the product or put it in their mouth. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00691/26	UK	Doll house toy (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), diisobutyl phthalate (DIBP), and di-isononyl phthalate (DINP). The phthalates may harm the health of children, causing possible damage to their reproductive system. Moreover, the battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border.
SR/00695/26	Germany	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances and nitrosamines (measured values up to 4.2 mg/kg and 0.06 mg/kg, respectively). Nitrosamines can cause cancer if swallowed or through skin contact. A child could be exposed to them if they touch the product or put it in their mouth. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00700/26	Poland	Toy tricycle (Country of Origin: Poland)		Injuries The tricycle is not stable enough. When used on uneven ground, it could easily overturn, causing injury to the child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market.
SR/00719/26	Estonia	Puzzle toy (Country of Origin: China)		Choking The product contains small parts (the shapes). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.
SR/00720/26	Germany	Balloons (Country of Origin: China)		Chemical The material of which the balloons are made releases an excessive amount of nitrosatable substances and nitrosamines (measured values: 5.6 mg/kg and 0.1 mg/kg, respectively). Nitrosamines can cause cancer if swallowed or through skin contact. A child could be exposed to them if they touch the product or put it in their mouth. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00723/26	Estonia	Musical toy set (Country of Origin: China)		Choking The toy contains small parts (rings) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace.
SR/00729/26	Hungary	Soft toy (Country of Origin: China)		Chemical, Choking The toy has small parts (eyes and nose) that can easily detach. A small child may put them in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. Additionally, the suction cup of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 16% and 11% by weight, respectively). These phthalates may harm the	Ban on the marketing of the product and any accompanying measures.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				health of children, causing possible damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation and the European standard EN 71-1.	
SR/00738/26	Germany	Sand toy (Country of Origin: China)		Chemical The product contains asbestos fibres. Asbestos causes cancer. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.
SR/00756/26	Czechia	Talking bird toy (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 33.5% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive).	Withdrawal of the product from the market.
SR/00757/26	Netherlands	Sand activity toy (Country of Origin: China)		Health risk / Other The play sand contains asbestos fibres. Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market.
SR/00758/26	Netherlands	Sand activity toy (Country of Origin: China)		Health risk / Other The play sand contains asbestos fibres (measured value up to 5% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Warning consumers of the risks.
SR/00759/26	Luxembourg	Sand activity toy (Country of Origin: China)		Health risk / Other The product contains asbestos fibres. Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00760/26	Sweden	Climbing arch (Country of Origin: Unknown)		Injuries The product lacks self-locking mechanisms on the different board, which can cause them to come loose during use, posing a risk of injuries to the child's hands and fingers. Moreover, the product lacks stability and can tip over during use, leading to a child falling off and suffer a concussion. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Recall of the product from end users.
SR/00773/26	France	Bath toy (Country of Origin: China)		Chemical The battery compartment of the toy can easily be opened without use of any tools and the batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Removal of this product listing by the online marketplace.
SR/00777/26	France	Bath toy (Country of Origin: China)		Chemical, Choking The product has small parts (suction cup) that can easily detach. A small child may put them in the mouth and choke. Moreover, the battery compartment can be easily opened without a tool, making the batteries accessible. A child could put the batteries in their mouth, with a risk of damage to the child's gastrointestinal tract if swallowed. The product does not comply with the requirements of the Toy Safety Directive nor with European standards EN 62115 and EN 71-1.	Removal of this product listing by the online marketplace.
SR/00779/26	Norway	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1,108 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The	Withdrawal of the product from the market.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				product does not comply with the requirements of the Toy Safety Directive.	
SR/00784/26	Luxembourg	Sand activity toy (Country of Origin: China)		Health risk / Other The product contains asbestos fibres. Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00785/26	Slovenia	Soother (Country of Origin: China)		Choking The rubber of the soother's teat can easily detach. A small child could put it in the mouth and choke. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1400.	Removal of this product listing by the online marketplace.
SR/00787/26	Ireland	Soft toy (Country of Origin: China)		Choking The toy has small parts (the eyes) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace.
SR/00791/26	Ireland	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) that can easily detach. Small children may put them in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace.
SR/00800/26	France	Toy rattle (Country of Origin: China)		Choking The toy has small parts (metal bells) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00803/26	France	Wooden activity toy (Country of Origin: China)		Choking The toy has small parts (the letter L, and the buttons) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace.
SR/00805/26	Slovenia	Baby soother feeder (Country of Origin: China)		Choking When using the feeding device as intended, parts might come apart. This could make food from the soother accessible to the child. The child could put this food in their mouth, and it may block their airway, leading to choking. Moreover, the packaging does not have the required safety label, with risk-related indications in the national language. The user, therefore, lacks the necessary information on the dangers of this product. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace.
SR/00816/26	Ireland	Expandable toy (Country of Origin: China)		Choking The product expands more than 50% in size when in contact with water. If a child puts the product in the mouth or swallows it, contact with saliva or stomach liquids will cause the product to expand, which can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00817/26	Bulgaria	Baby sling (Country of Origin: Turkey)		Asphyxiation, Burns, Injuries The product's material is highly flammable, and the flame propagation is too high. The sling may catch fire if used close to an ignition source. This can result in burns, in asphyxiation caused by the gases released during combustion, and in the child falling and suffering injuries due to the sling's structural stability being compromised. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16512.	Ban on the marketing of the product and any accompanying measures.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00824/26	UK	Expandable toy (Country of Origin: China)		Choking, Injuries The product expands more than 50% in size when in contact with water. If a child puts it in the mouth or swallows it, the contact with saliva or stomach liquids will cause the product to expand, which can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace.
SR/00826/26	Poland	Toy tricycle (Country of Origin: Poland)		Injuries, Suffocation The tricycle is not stable enough. When used on uneven ground, it could easily overturn, causing injury to the child. Moreover, inadequate distances between the moving parts of the wheels and frame can cause injuries in case of feet entrapment between moving parts. Furthermore, the plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks.
SR/00827/26	UK	Bath bomb (Country of Origin: China)		Chemical, Choking The product contains 2-(4-tert-butylbenzyl) propionaldehyde (BMHCA), which is prohibited in cosmetic products. BMHCA may harm the reproductive system, may harm the health of the unborn child and may cause skin sensitisation. The product lacks child-resistant fastening. Moreover, it has small parts (soap dinosaur). A small child may put them in the mouth and choke. This product does not comply with the Cosmetic Products Regulation, and does not meet the requirements of the Toy Safety Directive.	Import rejected at border.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00829/26	France	Children's bicycle seat (Country of Origin: China)		Cuts, Injuries The children's feet can get trapped between the wheel and the bicycle frame, causing the child to fall out of the seat and suffer injuries. Moreover, the mounting screws of the bicycle seat have protruding parts, which may cause cuts to the child. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14344.	Removal of this product listing by the online marketplace.
SR/00833/26	Sweden	Soft toy (Country of Origin: China)		Chemical The plastic material of the toy's face has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured values up to 24 % and 0.2% by weight, respectively). These phthalates may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market.
SR/00834/26	Austria	Soft toy (Country of Origin: China)		Choking The toy has small parts (the bell) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.
SR/00852/26	UK	Soother holder (Country of Origin: China)		Choking, Strangulation The cord of the soother holder is too long. It can become wrapped around the neck of the baby, leading to strangulation. Moreover, due to the reduced diameter of the product, it could break, leading to the risk of choking. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace.
SR/00859/26	Spain	Children's bicycle seat (Country of Origin: Portugal)		Injuries The edges and projections are not rounded nor free of dangerous burrs. Exposed edges that may come into contact with the supervising adult. During normal riding, handling, or maintenance, it may lead to injuries. The product	Withdrawal of the product from the market.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				does not comply with the General Product Safety Regulation.	
SR/00866/26	Austria	Key ring (Country of Origin: China)		Choking The product has small parts (the dummy and the metal inserts) that can easily detach. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.
SR/00867/26	Austria	Plastic toy (Country of Origin: China)		Choking The product has small parts (the eyes) that can easily detach. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.
SR/00868/26	France	Soft toy (Country of Origin: China)		Burns The batteries may overheat if the moving parts of the soft toy (legs and head) are obstructed during standard usage, which may cause burns to users. The product does not comply with the requirements of the Toy Safety Directive.	Warning consumers of the risks.
SR/00876/26	France	Baby sling (Country of Origin: China)		Injuries The baby sling lacks the required instructions for correct use. This could lead to a child not being properly secured in the baby carrier or the product being incorrectly set, which could cause the baby to fall and suffer injuries. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace.
SR/00881/26	Austria	Squeeze toy (Country of Origin: China)		Choking The product has small parts (the feet) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00882/26	UK	Baby walker (Country of Origin: China)		Injuries The product can tip over when pulled over an edge. This could cause injuries to the child and users. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1273.	Import rejected at border.
SR/00883/26	UK	Baby walker (Country of Origin: China)		Injuries The product can tip over when pulled over an edge. This could cause injuries to the child and users. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1273.	Destruction of the product.
SR/00885/26	Austria	Soft toy with key ring (Country of Origin: China)		Choking The product has small parts (carabiner) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users.
SR/00887/26	UK	Playpen (Country of Origin: China)		Choking The product has small parts (zip pull). A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border.
SR/00901/26	France	Bath toy (Country of Origin: China)		Chemical, Choking The battery compartment of the toy can be easily opened without the use of any tools, and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Removal of this product listing by the online marketplace.

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00903/26	UK	Fidget toy (Country of Origin: China)		Choking, Microbiological The products can burst easily, releasing small parts. A small child may put them in the mouth and choke. The aqueous solution inside the product contains an excessive concentration of microbiological contamination. As the product bursts, this will also become accessible, which could present a microbial infection risk to the user if ingested, inhaled, or through skin contact. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users.
SR/00904/26	UK	Toy aircraft (Country of Origin: China)		Chemical, Choking The battery compartment of the toy can be easily opened without the use of any tools, and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive.	Destruction of the product.

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products' marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (March 2026)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-315	USA	HALO Magic Sleepsuits (Country of Origin: India)		Choking Hazard HALO Dream Recalls Magic Sleepsuits due to Choking Hazard. The zipper head can detach from certain sleepsuits, posing a choking hazard to infants.	Consumers should stop using the recalled HALO Magic Sleepsuit immediately and go to the firm’s website at http://www.sleepsuitrecall.com to participate in the recall. After registering, consumers will receive a coupon code that can be applied towards a replacement sleepsuit or a \$50 store credit to purchase another item on the firm’s website.
26-317	USA	Cubimana Island Storm 3 In 1 Building Sets with		Risk of Serious Injury or Death Cubimana Island Storm 3 In 1 Building Sets Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Toys; Sold on Amazon by RBS	Consumers should take the Island Storm 3 In 1 Building Sets

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
		LED Lights (Country of Origin: China)		<p>Toys.</p> <p>The Island Storm Building Sets violate the mandatory safety standard for toys because the battery compartment within the LED light piece contains button cell batteries that can be easily accessed by children. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.</p>	<p>away from children immediately, stop using the recalled toys, and remove and properly dispose of the batteries. Consumers will be asked to throw the product away and send a photo of the disposed product to productrecall@cubimantoy.com to receive a full refund.</p>
26-319	USA	Kluster Fun Tabletop Magnet Chess Games (Country of Origin: China)		<p>Ingestion Hazard</p> <p>Stoney Games Recalls Kluster Magnet Chess Games Due to Risk of Serious Injury or Death from Magnet Ingestion; Violates Mandatory Standard for Toys.</p> <p>The recalled magnet games violate the mandatory standard for toys because they contain loose high-powered magnets that fit within CPSC's small parts cylinder, posing an ingestion hazard to children. When high-powered magnets are swallowed, the ingested magnets can attract each other, or other metal objects, and become lodged in the digestive system. This can result in perforations, twisting, and/or blockage of the intestines, blood poisoning, and death.</p>	<p>Consumers should immediately stop using the recalled magnet games, take them away from children, and contact Stoney Games for instructions on how to dispose of the recalled magnets and receive</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					replacement magnets that are not small parts.
26-320	USA	ProRider Bicycle Helmets (Country of Origin: China)		Risk of Serious Injury or Death ProRider Recalls Bicycle Helmets Due to Risk of Serious Injury or Death from Head Injury; Violates Mandatory Standard for Bicycle Helmets. The recalled helmets violate the mandatory safety standard for bicycle helmets because the helmets do not comply with the impact attenuation, positional stability, labelling, and certification requirements. The helmets can fail to protect the user in the event of a crash, posing a serious risk of injury or death due to head injury.	Consumers should immediately stop using the recalled helmets and contact ProRider for a full refund. Consumers should destroy the helmet by cutting the straps and sending a photo of the destroyed helmet to org@prorider.com to obtain a refund.
26-324	USA	Playground Swing Set Seats (Country of Origin: China)		Fall Hazard This recall involves the Playground Swing Set Seats sold as part of assembled playground sets. The swing belt seat was sold in black, blue, green, red, tan, and yellow colours. The product is marked with the code "LF-65708" on the seat pad part. Only swings with model number 999604 are included in this recall. The firm received one report of a swing breaking and a child falling, resulting in a minor injury.	Consumers should stop using the recalled playground swings immediately and contact LFTE USA for a free replacement swing seat. Little Tikes Commercial

					and Miracle Recreation Equipment have contacted all known purchasers directly.
26-330	USA	<p>Specialized Turbo Como SL 4.0 & 5.0 Bicycle Forks</p> <p>(Country of Origin: Taiwan)</p>		<p>Fall Hazard</p> <p>Specialized Bicycle Components Recalls Specialized Turbo Como SL Electric Bicycles Due to Risk of Serious Injury or Death from Fall Hazard.</p> <p>The bike's fork steerer tube can develop a small fatigue crack that can lead to a progressive failure of the fork, posing a fall hazard.</p>	<p>Consumers should stop using their Specialized Turbo Como SL bicycles immediately and contact their Authorized Specialized Retailer to schedule an appointment to bring their bike in for a free replacement of the fork at an authorized dealer location. Replacement parts are expected to be available in Spring 2026</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-331	USA	BUILT LUUM Tumblers (Country of Origin: China)		<p>Ingestion Hazards</p> <p>Lifetime Brands Recalls BUILT LUUM Light Up Tumblers Due to Risk of Choking and Battery Ingestion Hazards.</p> <p>The recalled LED tumblers can break, making the button cell batteries accessible to children and posing choking and ingestion hazards. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.</p>	<p>Consumers should stop using the recalled tumblers immediately, place them in an area that children cannot access, and properly dispose of the battery. Contact Lifetime Brands for a full refund. Consumers will be asked to throw the piece with the LED light away and upload a photo of the product in the trash when completing a Product Recall Refund Form at https://www.builtny.com/pages/recall.</p>
26-332	USA	Goregent Infant Walkers (Country of Origin: China)		<p>Fall Hazard</p> <p>Infant Walkers Recalled Due to Risk of Serious Injury or Death from Fall Hazard; Violate Mandatory Standard for Infant Walkers; Sold on Amazon by Goregent Official Store.</p> <p>The recalled infant walkers violate the</p>	<p>Consumers should immediately stop using the recalled infant walkers and contact</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				<p>mandatory standard for infant walkers because they can fit through a standard doorway and fail to stop at the edge of a step, posing a risk of serious injury or death due to a fall hazard.</p>	<p>Goregent Official Store for a full refund.</p> <p>Consumers will be asked to disassemble the walker, remove the fabric seat, write "Recalled" on the top of the tray in permanent marker, and send a photo of the recalled infant walker to GoregentInfantWalkersRecall@outlook.com.</p>
26-340	USA	<p>4our Kiddies Plastic Tip Restraint Kits</p> <p>(Country of Origin: China)</p>		<p>Risk of Serious Injury and Death</p> <p>This recall involves defective plastic tip restraint kits (also referred to as furniture straps) manufactured by 4our Kiddies. The recalled tip restraint kits contain two white plastic brackets/mounts (one for connection to furniture and the other for connection to the wall), a white plastic cable zip tie, two different pairs of screws (one longer than the other), and two drywall anchors.</p> <p>The plastic in the brackets/mounts and the cable zip tie can break or degrade over time, which could lead to furniture tipping over if a consumer interacts with furniture that was secured by the</p>	<p>Consumers should stop using 4our Kiddies plastic tip restraints immediately and contact 4our Kiddies for a free replacement tip restraint kit made of stainless steel. Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				<p>recalled product. CPSC testing revealed that the recalled plastic tip restraints failed to meet the requirements of the industry standard for tip restraints.</p> <p>The recalled plastic tip restraint kits (also referred to as furniture straps) can break or degrade, posing tip-over and entrapment hazards that can result in serious injuries or death to children or elderly consumers interacting with furniture that is secured to the wall with the defective plastic tip restraints. This is a hidden defect because consumers who purchase and install this product may be under a false sense of security that their furniture is safe from a tip-over incident.</p>	<p>children away from the unit while waiting for a replacement tip restraint kit and should dispose of the recalled tip restraint in their household trash once they have installed the replacement tip restraint.</p>
26-342	USA	<p>AirClub Convertible Bassinets</p> <p>(Country of Origin: China)</p>		<p>Fall Hazard</p> <p>AirClub Convertible Bassinets Recalled Due to Risk of Serious Injury or Death from Fall Hazard; Violates Mandatory Standard for Bedside Sleepers.</p> <p>The recalled convertible bassinets violate the mandatory standard for bedside sleepers because the mechanism used to attach the product to the adult bed creates an opening between the bedside sleeper and mattress, posing a deadly fall hazard to infants.</p>	<p>Consumers should stop using the recalled AirClub convertible bassinets immediately and contact AirClub for a replacement attachment mechanism. Consumers will be asked to cut off the two original L-shaped straps, throw them away, and follow the instructions</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					provided to install the new four straps with T-shaped buckle.
26-344	USA	Sunnyyes LED Mini Lights (Country of Origin: China)		Missing of Warnings Sunnyyes LED Mini Lights Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Consumer Products with Coin Batteries. The recalled LED lights violate the mandatory standard for consumer products containing button cell or coin batteries because the lights contain lithium coin batteries that can be accessed easily by children, posing an ingestion hazard. Additionally, the screw used on the remote controls to secure the battery compartments that contain a lithium coin battery does not remain attached. Also, the packaging does not have the warnings as required by Reese's Law. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.	Consumers should stop using the recalled LED lights immediately and place them in an area where children cannot access them. Consumers will be asked to disassemble and submerge all components in water. To receive a full refund, consumers will be asked to email a photo of the submerged product to usa@sunnyyes.com .
26-345	USA	GLMZZ Fidget Magnet Ball Toys (Country of		Ingestion Hazard GLMZZ Fidget Magnet Ball Toys Recalled Due to Risk of Serious Injury or Death from Magnet Ingestion; Violates Mandatory Standard for Toys. The magnet ball toys violate the mandatory	Consumers should stop using the recalled magnet ball toys immediately,

		Origin: China)		standard for toys because they are high-powered magnets, posing an ingestion hazard to children. When high-powered magnets are swallowed, they can attract each other, or other metal objects, and become lodged in the digestive system. This can result in perforations, twisting, and/or blockage of the intestines, blood poisoning, and death.	take them away from children, and contact GLMZZ to receive a full refund. Consumers will be asked to throw the magnet ball toys away and email a photo of the disposal to GLMZZrecall@outlook.com .
26-348	USA	FUNTOK 24V 2-Seater Ride-On Trucks (Country of Origin: China)		Fire and Burn Hazards FUNTOK Ride-On Trucks Recalled Due to Fire and Burn Hazards; Risk of Serious Injury or Death; Imported by Shenzhen Luobei Trading. The truck's circuit board can overheat and ignite, posing fire and burn hazards.	Consumers should stop using the recalled ride-on truck immediately, unplug the truck if it is charging, and contact Shenzhen Luobei Trading Co. for instructions to receive a full refund. To obtain a refund, consumers will need to disable the ride-on truck by cutting

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					the wires to the battery and submitting a photo of the cut wires with "VOID," the consumer's name and the date written on the hood of the truck in permanent marker.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC's Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australian Toys / Children’s Products

ACCC Recall List (March 2026)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2026/20832	Australia	Stretcherz Stretch Squad XXL and Slammerz - stretchy toys (Country of Origin: China)		Using Prohibited Substance The products are being recalled because the sand inside the figures may contain asbestos, which is a prohibited substance in Australia. The sand inside the figures may cause a risk to health if the product is damaged and the sand is released, as tremolite asbestos has been detected in some samples after laboratory testing.	1. Stop using the products immediately. 2. For safe disposal advice from the Asbestos and Silica Safety and Eradication Agency, visit the ACCC Product Safety website.
2026/20841	Australia	Fidget Spinner LED Light Up Pen (Country of Origin: China)		Risk of Choking The toy doesn't comply with the mandatory standards for products containing button/coin batteries. Stop using the product immediately and keep it out of reach of children. Do not remove the batteries from the product and dispose of the product safely.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.
