

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (June 2026)

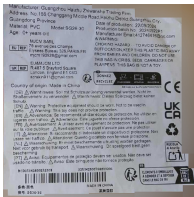

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00064/26	France	Soft toy (Country of Origin: China)		Choking Due to the weakness of the seams, the fibrous stuffing material of the toy is easily accessible. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
OR/00067/26	France	Toy drone (Country of Origin: China)		Fire The drone’s battery and its supplied charger are electrically incompatible. This causes the battery to degrade more quickly and poses a risk of fire. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
OR/00070/26	France	Car seat (Country of Origin: France)		Injuries Due to the weakness in the connection between the carrying handle and the shell of the car seat, one side of the handle could detach, causing the child to fall and be injured. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1888-1.	Withdrawal of the product from the market
OR/00077/26	Iceland	Baby swing (Country of Origin: China)		Strangulation The instructions of the product do not state the maximum installation height. If the swings are installed too high, a child could have the head entangled on the rope, and this could cause the risk of strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Stop of sales

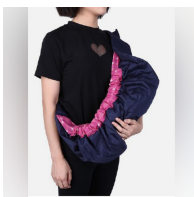

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00084/26	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
OR/00085/26	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01537/26	France	Toy gun (Country of Origin: China)		Choking The toy has small parts (suction cups) that can easily detach. Small children could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
SR/01540/26	France	Soft toy (Country of Origin: China)		Chemical The textile label on the product contains chromium VI (measured value: 0.13 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions, and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-3.	Removal of this product listing by the online marketplace
SR/01551/26	Poland	Toy scooter (Country of Origin: China)		Injuries The diameter of the front wheels of the scooter is too small (measured value: 117 mm), which can lead the scooter's wheels to become stuck on an uneven surface. Moreover, the steering tubes are not resistant to load and may collapse during use. The child might fall off the scooter and suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

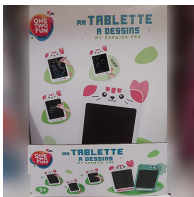

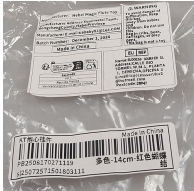

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01552/26	France	Key ring with LED lamp (Country of Origin: China)		Chemical, Choking, Damage to Sight The battery compartment can easily be opened without the use of any tools, and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. Moreover, the LED light is too powerful. Direct viewing of the laser beam could cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive or with the European standard EN 62115.	Warning consumers of the risks
SR/01554/26	Germany	Puzzle mat (Country of Origin: China)		Chemical, Suffocation The product may contain formamide, plasticizers, polycyclic aromatic hydrocarbons, and flame retardants, which are dangerous for human health and could cause cancer. Moreover, the product has small parts. Small children could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1,	Destruction of the product
SR/01555/26	Denmark	Soft play furniture (Country of Origin: Denmark)		Choking The product can easily crumble, originating small parts. Small children can put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1	Recall of the product from end users
SR/01593/26	France	Water bottle (Country of Origin: China)		Choking The toy has protruding parts that are too long ("ear" parts of the permanent protective lid). A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation.	Withdrawal of the product from the market
SR/01596/26	UK	Squeeze toy (Country of Origin: China)		Chemical, Choking The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 13% and 0.015% by	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive systems. Moreover, small parts may easily detach (plastic shapes and balls). A small child could put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/01603/26	Slovenia	Fancy dress costume (Country of Origin: China)		Burns, Fire The costume may easily catch fire if close to an ignition source, resulting in fire and burns to the user. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard 71-2.	Recall of the product from end users
SR/01618/26	France	Baby carrier (Country of Origin: China)		Injuries The product lacks instructions, which could lead to a child not being properly secured in the baby carrier, with the risk of falling as a result of incorrect positioning of the child or incorrect adjustment of the product. The product does not comply with the General Product Safety Regulation.	Recall of the product from end users
SR/01627/26	France	Soft toy (Country of Origin: China)		Choking The product has small parts (left eye) that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European Standard EN 71-1.	Warning consumers of the risks
SR/01630/26	France	Soft toy (Country of Origin: China)		Chemical The migration of chromium VI from the toy is too high (measured value: 0.19 mg/kg by weight). Chromium (VI) is sensitising, can trigger allergic reactions, and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01632/26	Germany	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 43.4% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive systems. The product does not comply with the REACH Regulation.	Marking the product with appropriate warnings on the risks
SR/01639/26	France	Wooden toy (Country of Origin: China)		Choking The product has small parts (wooden dowel pins coupling the train parts) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Withdrawal of the product from the market
SR/01641/26	UK	Remote control toy (Country of Origin: China)		Burns, Chemical The battery compartment can be easily opened without the aid of a tool, leaving button batteries accessible. A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract if swallowed. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01642/26	Germany	Soft toy with key ring (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 26.74% and 0.91% by weight, respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
SR/01661/26	Germany	Toy rattle (Country of Origin: China)		Choking The toy has small parts (metal bells) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01669/26	France	Fancy-dress costume (Country of Origin: China)		Choking, Injuries, Strangulation The product has functional cords close to the neck area, to be tied at the front or at the back of the upper body. The cords may become trapped during various activities of a child, resulting in injuries and/or strangulation. In addition, the product has small parts (white bead on the flower) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01674/26	UK	Baby pillow (Country of Origin: Unknown)		Suffocation The pillow is not firm enough, leading to a risk of suffocation for the baby if their face is turned towards or leaning against the cushion for a long period. The product does not comply with the General Product Safety Regulation nor with the European standards EN 16890 and EN 1466.	Removal of this product listing by the online marketplace
SR/01685/26	France	Baby carrier (Country of Origin: China)		Injuries, Suffocation After several washes, the adjustment ring slides on the fabric, which may cause the baby to fall out of the sling. Moreover, the product does not contain any washing instructions to ensure the fabric air permeability. Accordingly, if the baby's respiratory tract (nose, mouth) is in contact with the fabric that is no longer permeable to air, there is a risk of suffocation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16512.	Recall of the product from end users
SR/01693/26	France	Baby carrier (Country of Origin: China)		Injuries The product lacks instructions, which could lead to a child not being properly secured in the baby carrier, with the risk of falling as a result of incorrect positioning of the child or incorrect adjustment of the product. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01695/26	France	Baby carrier (Country of Origin: China)		Injuries The product lacks instructions, which could lead to a child not being properly secured in the baby carrier, with the risk of falling as a result of incorrect positioning of the child or incorrect adjustment of the product. The product does not comply with the General Product Safety Regulation.	Warning consumers of the risks
SR/01709/26	Slovakia	Expandable beads (Country of Origin: China)		Choking, Injuries The product expands in size when in contact with water. If a child puts the product in the mouth or swallows it, contact with saliva or stomach liquids will cause the product to expand, which can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/01711/26	Finland	Key ring with soft toy (Country of Origin: China)		Choking The product has small parts that can easily detach (round ends of hood cords). Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
SR/01713/26	France	Baby carrier (Country of Origin: China)		Injuries The baby carrier does not come with instructions for use. This could lead to a child not being properly secured in the baby carrier, with the risk of falling and receiving injuries. The product does not comply with the General Product Safety Regulation.	Warning the seller of the risks
SR/01715/26	France	Base for car seat (Country of Origin: China)		Injuries A visual indicator on the base may be disturbed if the car seat is not removed in accordance with the instructions. In this case, the indicator may not work as expected on the next installation. This means that even if the indicator is green, the car seat may not be properly attached to the	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				base. This may result in a risk of injury. The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles nor with Regulation UN/ECE No 129.	
SR/01722/26	Spain	Toy drawing board (Country of Origin: China)		Choking The toy has small parts (the protective part on the tip of the stylus and the tip itself) that can easily detach. Small children could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01729/26	Spain	Plastic toy (Country of Origin: China)		Choking The toy has small parts (wheels) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01730/26	France	Toy flashlight (Country of Origin: China)		Damage to Sight The LED is too powerful. As a result, direct viewing of the laser beam could cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Warning consumers of the risks
SR/01732/26	Germany	Key ring with soft toy (Country of Origin: China)		Choking The toy has small parts (fob) which can easily be detached. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

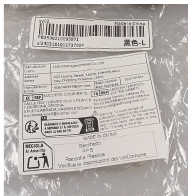

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01733/26	France	Plastic toy (Country of Origin: China)		Chemical The battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can release electrolyte, which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with European standards EN 62115 and EN 71-1.	Removal of this product listing by the online marketplace
SR/01744/26	Germany	Children's hoodie (Country of Origin: China)		Strangulation The product has long cords in the neck area. These drawstrings can become trapped during various activities of a child, leading to strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14682.	Removal of this product listing by the online marketplace
SR/01758/26	Ireland	Educational toy (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01759/26	Ireland	Toy magnet (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01760/26	Ireland	Toy robot (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks

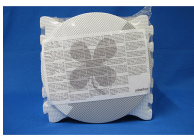

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01761/26	Ireland	Soft fabric toy (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01762/26	Ireland	Wooden toy (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01763/26	Ireland	Soft toy (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01764/26	Ireland	Toy set (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01765/26	Ireland	Toy figure (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace.
SR/01766/26	Ireland	Glow in the dark stickers (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01767/26	Ireland	Plastic toy (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01768/26	Ireland	Gift set (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01769/26	Ireland	Toy figures (Country of Origin: China)		Choking The product has small parts that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Warning consumers of the risks
SR/01771/26	France	Musical toy (Country of Origin: China)		Burns, Chemical Batteries can overheat and cause burns if the toy is blocked. Moreover, the battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can release electrolyte, which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Removal of this product listing by the online marketplace
SR/01772/26	UK	Plastic toy (Country of Origin: China)		Chemical, Injuries The battery compartment can easily be opened without the use of any tools, and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace

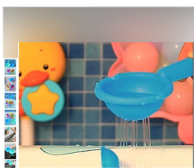

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01774/26	Spain	Battery operated toy (Country of Origin: China)		Choking, Suffocation The toy has small parts (the eyes on the cactus) that can easily detach. A small child could put them in the mouth and choke. Moreover, the plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and EN 62115.	Ban on the marketing of the product and any accompanying measures
SR/01778/26	Poland	Toy tricycle (Country of Origin: China)		Injuries The tricycle is not stable enough. When used on uneven ground, it could easily overturn, causing injuries to the child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01782/26	Poland	Baby sleeping bag (Country of Origin: Poland)		Choking, Entrapment, Suffocation The product's neck opening is too large, which could cause the baby to slip inside the sleeping bag, covering its mouth and/or nose area and leading to suffocation. Moreover, the accessible label in the form of the loop poses a risk of finger entrapment. In addition, the product has small parts (metal snaps) that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16781.	Warning consumers of the risks
SR/01792/26	Ireland	Doll's house (Country of Origin: China)		Choking, Cuts The front roof screws and hinges can easily detach. The detached screws have sharp points. Due to their small size, small children could put them in the mouth and choke, or could suffer cuts. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01793/26	UK	Travel cot (Country of Origin: China)		Injuries, Suffocation The product is not structurally stable and has no warnings to indicate that it cannot be used overnight. If a baby is left in the product overnight, their natural movements could cause the product to collapse or fall sideways, resulting in injuries. Moreover, the crib is supplied with a cover that would fully enclose and cover the baby, potentially leading to suffocation. The product does not comply with the General Product Safety Regulation.	Withdrawal of the product from the market
SR/01794/26	Poland	Bicycle seat (Country of Origin: EU)		Choking, Injuries The bicycle seat attachment system does not have an automatic lock, and the assembly and user manual do not indicate when the system is properly locked. The seat may be attached to the bicycle improperly, which may cause it to detach during a ride, causing injuries to a child. Additionally, the restraint system is ineffective. Moreover, the product has small parts (strap adjuster) that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14344.	Recall of the product from end users
SR/01795/26	Poland	Plastic toy (Country of Origin: China)		Choking, Cuts, Strangulation The product has small parts (elements of a plastic ring) that may easily detach. Small children may put them in the mouth and choke. Moreover, the cord is too long. It can become wrapped around the neck of a child, leading to strangulation. In addition, the self-retracting cord is too thin and may cause cuts. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01796/26	Poland	Felt-tip pens (Country of Origin: China)		Chemical The migration of aluminium from the toy is too high (measured value up to 2724 mg/kg). Aluminium is toxic to children if ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
SR/01802/26	UK	Teething toy (Country of Origin: China)		Choking The product has small parts (teething tips) that may easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01804/26	France	Baby carrier (Country of Origin: China)		Injuries The baby carrier does not come with instructions for use. This could lead to a child not being properly secured in the baby carrier, with the risk of falling and receiving injuries. The product does not comply with the General Product Safety Regulation.	Warning consumers of the risks
SR/01805/26	Germany	Key ring with soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) which can easily be detached. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01806/26	Germany	Key ring with soft toy (Country of Origin: China)		Choking The toy has small parts (key ring) which can easily be detached. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01808/26	France	Toy gun (Country of Origin: China)		Burns The battery compartment can be easily opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can release electrolyte, which can be ingested by the child and cause damage to the gastrointestinal tract. Moreover, the battery pack overheats, which may lead to burns. The product does not comply with the requirements of the Toy Safety Directive or with European standards EN 62115.	Removal of this product listing by the online marketplace
SR/01813/26	France	Sand-filled figurine toy (Country of Origin: China)		Chemical The toy could rupture, and the filling inside could come out. The sand inside contains asbestos (measured value up to 3.23% by weight). Asbestos could cause cancer. This product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01814/26	France	Sand-filled figurine toy (Country of Origin: China)		Chemical The toy could rupture, and the filling inside could come out. The sand inside contains asbestos. Asbestos could cause cancer. This product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01815/26	France	Projector (Country of Origin: China)		Damage to Sight The beam intensity of the LED light in the toy is too powerful. Direct viewing of the beam could cause damage to the sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Withdrawal of the product from the market
SR/01817/26	Germany	Puzzle mat (Country of Origin: China)		Choking The product has small parts (from the puzzle piece with the snail) that may easily detach. Additionally, while a child is playing with the detached animal motifs (giraffe and hippopotamus) or removing them, small parts could be formed. Small children may put them in the mouth and choke. The product does not	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/01836/26	UK	Toy set (Country of Origin: China)		Choking The toy has small parts (eggs and plastic toys) that can easily be detached. A small child could put them in the mouth and choke. Due to its characteristic form, colour, appearance, and size, the product may be mistaken for a foodstuff. This may lead children to put it in the mouth. Small parts may be bitten off, which could lead to choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01844/26	France	Plastic toy (Country of Origin: China)		Choking The product has a small part (flower) that may easily detach. Small children may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/01846/26	Estonia	Children's car seat (Country of Origin: China)		Injuries The product does not sufficiently reduce the risk of injury to the wearer in the event of a vehicle collision or sudden deceleration, which could lead to injuries. The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles, nor with Regulation UN/ECE No 129.	Recall of the product from end users
SR/01852/26	Slovenia	Sand-filled figurine toy (Country of Origin: China)		Health Risk / Other The toy could rupture, and the filling inside could come out. The sand inside contains asbestos (measured value up to 2.05% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01856/26	Germany	Puzzle mat (Country of Origin: China)		Choking The product has small parts (middle parts and tabs of the puzzle pieces) that may easily detach or break. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/01858/26	France	Bath toy (Country of Origin: China)		Choking The toy is supplied with unmounted and detached small parts (suction cups). A small child may put them in the mouth and choke. The product does not comply with the requirements set out in the Toy Safety Directive nor with European Standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01859/26	UK	Soft toy (Country of Origin: China)		Choking The soft toy has a small part (the nose) that can easily detach. Small children may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/01861/26	UK	Board game set (Country of Origin: UK)		Choking The product set includes small parts and small magnets. Small children can put these in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01870/26	France	Fancy-dress costume (Country of Origin: China)		Chemical The migration of chromium VI from the textile labels is too high (measured value up to 0.22 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions, and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01874/26	France	Fancy-dress costume (Country of Origin: China)		Burns The fabric of the product is highly flammable. The costume may catch fire if worn close to an ignition source, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-2.	Recall of the product from end users
SR/01876/26	Ireland	Plush toy (Country of Origin: China)		Choking The product has a small part (zipper slider on the side pouch) that may easily detach. Small children may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01884/26	Poland	Plastic toy (Country of Origin: China)		Strangulation The cords of the product are too long. They can become wrapped around the neck of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01885/26	France	Toy watch (Country of Origin: China)		Chemical, Choking The battery compartment can easily be opened without the use of any tools, and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 62115.	Removal of this product listing by the online marketplace
SR/01889/26	Poland	Balance bicycle (Country of Origin: China)		Entrapment, Injuries, Suffocation The bicycle has gaps between elements of the wheels and the fork, which may cause foot entrapment and injuries. Moreover, the plastic bag of the packaging is too thin. If a child places it over the head, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/01891/26	France	Fancy-dress costume (Country of Origin: China)		Strangulation The costume has long functional cords with free ends in the neck area. These cords could become trapped during the child's various activities, leading to strangulation. The toy does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/01892/26	Slovenia	Sand activity toy (Country of Origin: China)		Health Risk / Other The play sand contains asbestos fibres (measured value: 0.14% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01893/26	Ireland	Soother holder (Country of Origin: China)		Choking, Strangulation The garment fastener can easily detach and break, generating small parts. Small children could put them in the mouth and choke. Moreover, the product's strap is too long. It could entangle around the neck of the child and create the risk of strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on [https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true](https://ec.europa.eu/safety-gate/alerts/screen/search?resetSearch=true). The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:
