Recall Summary – European Toys / Children's Products

EU Safety Gate Alerts (October 2026)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00117/26	Slovenia	**Wooden toy** (Country of Origin: **Unknown**)		**Strangulation** The product has a long cord. The cord may become wrapped around the child's neck and tighten as the child moves, resulting in strangulation. The toy does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02621/26	France	**Plastic toy** (Country of Origin: **China**)		**Chemical, Damage to Sight** The battery compartment can easily be opened without use of any tools and the batteries inside are easily accessible. If a child puts them in their mouth, the batteries can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. Moreover, the LED light is too powerful. Direct viewing of the laser beam could cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Withdrawal of the product from the market
SR/02629/26	Ireland	**Plastic toy** (Country of Origin: **China**)		**Choking, Strangulation** The toy has small parts (plastic components) that can easily detach. A small child could put them in their mouth and choke. Moreover, the product contains cords/chains that are too long. They could entangle around the neck of the child and create a risk of strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02630/26	Slovenia	**Safety lock** (Country of Origin: **China**)		**Choking** Small parts (buttons) can easily detach from the locking mechanism. A small child may put them in their mouth and choke. The product does not	Recall of the product from end users

				comply with the General Product Safety Regulation.	
SR/02632/26	France	**Soft toy** (Country of Origin: **China**)		**Choking** The product has small parts (eyes) that may easily detach. Small children may put them in their mouths and choke. Additionally, the fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may also put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/02635/26	UK	**Play tent** (Country of Origin: **China**)		**Chemical, Strangulation** The toy's string of lights and rope are too long. They could entangle around the neck of the child and create a risk of strangulation. Moreover, the battery compartment can easily be opened without use of any tools and the batteries inside are easily accessible. If a child puts them in their mouth, the batteries can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive.	Destruction of the product
SR/02640/26	UK	**Soft toy** (Country of Origin: **Netherlands**)		**Suffocation** Pillows and soft toys are advised not to be placed in the sleep space for babies under the age of one year, as their presence increases the risk of overheating and airway obstruction, which have been associated with sudden infant death syndrome (SIDS). The product may lead to suffocation when used in a sleep space for babies. The product does not comply with the requirements of the Toy Safety Directive.	Warning consumers of the risks
SR/02656/26	Germany	**Balloons** (Country of Origin: **China**)		**Chemical** The balloons release an excessive amount of nitrosamines and nitrosatable substances (measured total value: 0.21 mg/kg and 4.69 mg/kg, respectively). Nitrosatable	Stop of sales

				substances can be absorbed through the skin and mouth while playing and generate nitrosamines. Nitrosamines may cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	
SR/02661/26	Estonia	**Sensory toy** (Country of Origin: **China**)		**Choking** The product has small parts (plastic tentacles) that may easily detach. Small children may put them in their mouths and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/02666/26	Spain	**Squeeze toy set** (Country of Origin: **China**)		**Choking** The toy items (shaped like food) consist of small parts or contain small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/02670/26	Cyprus	**Toy gun** (Country of Origin: **Unknown**)		**Choking** The toy contains small parts (suction cups) that can easily become detached. A small child could put them in their mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/02679/26	France	**Toy car** (Country of Origin: **China**)		**Choking** The toy has a small part (left rear wheel) that can easily detach. Small children could put it in their mouths and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Warning consumers of the risks
SR/02680/26	Spain	**Toy gun set** (Country of Origin: **China**)		**Choking** The toy has small parts (suction cups) that can easily detach. Small children could put them in their mouths and choke. The product does not comply with the requirements of the Toy Safety	Ban on the marketing of the product and any accompanying measures

				Directive nor with the European Standard EN 71-1.	
SR/02681/26	Germany	**Balloons** (Country of Origin: **United States**)		**Chemical** The balloons release an excessive amount of nitrosatable substances (measured total value: 1.6 mg/kg). Nitrosatable substances can be absorbed through the skin and mouth while playing and generate nitrosamines. Nitrosamines may cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Destruction of the product
SR/02692/26	Germany	**Balloons** (Country of Origin: **China**)		**Chemical** The balloons release an excessive amount of nitrosatable substances (measured total value: 1.23 mg/kg). Nitrosatable substances can be absorbed through the skin and mouth while playing and generate nitrosamines. Nitrosamines may cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/02697/26	Sweden	**Musical toy mat** (Country of Origin: **China**)		**Environment** The solder in the product contains excessive concentrations of lead and cadmium (measured values up to 82.8% and 0.17% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
SR/02701/26	Sweden	**Push game toy** (Country of Origin: **China**)		**Environment** The solder in the product contains excessive concentrations of lead and cadmium (measured values up to 84.2% and 0.177% by weight, respectively). Lead poses a risk to the environment. Cadmium bio-accumulates and poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain	Withdrawal of the product from the market

				hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	
SR/02702/26	Netherlands	**Magnetic putty toy** (Country of Origin: **China**)		**Injuries** The toy consists of small magnets with high magnetic flux (measured value of 571 kg^2mm^2). If a child swallows them, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02704/26	Estonia	**Soft toy** (Country of Origin: **China**)		**Choking** The toy has a small part (plastic nose) that can easily detach. Small children may put it in their mouths and choke. Additionally, the fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/02708/26	Poland	**Plastic doll** (Country of Origin: **China**)		**Chemical** The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 0.2% by weight). This phthalate may harm the health by causing potential damage to the reproductive system The product does not comply with the REACH Regulation nor with the requirements of the Toy Safety Directive.	Destruction of the product
SR/02712/26	Poland	**Plastic ball** (Country of Origin: **China**)		**Chemical** The product has excessive concentrations of diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured values: 10.3% and 1.45% by weight, respectively). These phthalates may harm the health by causing potential damage to the reproductive system. The product does not comply with the REACH Regulation nor with the requirements of the Toy Safety Directive.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/02715/26	Netherlands	**Magnetic ball point pen** (Country of Origin: **China**)		**Injuries** The toy consists of small magnets with high magnetic flux (measured value up to 525 kg²mm²). If a child swallows them, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02719/26	Netherlands	**Magnetic ball point pen** (Country of Origin: **China**)		**Injuries** The toy consists of small magnets with high magnetic flux (measured value up to 438 kg²mm²). If a child swallows them, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02724/26	Lithuania	**Educational toy** (Country of Origin: **China**)		**Choking** The toy includes small parts (the fish-shaped pieces). Small children may put them in their mouths and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/02726/26	Ireland	**Antistress toy** (Country of Origin: **Unknown**)		**Chemical** The product contains benzene. Benzene is mutagenic and causes cancer. Exposure to large amounts may also cause a burning feeling throughout the digestive tract and skin irritation. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/02727/26	Germany	**Balloons** (Country of Origin: **China**)		**Chemical** The balloons release an excessive amount of nitrosatable substances (measured total value: 1.15 mg/kg). Nitrosatable substances can be absorbed through the skin and mouth while playing and generate nitrosamines. Nitrosamines may cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

Withdrawal of the product from the market
SR/02833/26	Estonia	**Educational toy** (Country of Origin: **China**)		**Choking** The toy has small parts (decorative sticker) that can easily detach. A small child could put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02834/26	France	**Teething toy** (Country of Origin: **China**)		**Choking** The product has small parts (sticks/balls and rings) that may easily detach. Small children may put them in their mouths and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/02836/26	Malta	**Ride-on toy car** (Country of Origin: **Unknown**)		**Choking** The battery compartment screw has no locking mechanism and can therefore easily open, leaving the batteries inside accessible. A small child may put the batteries in their mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and EN 62115.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03031/26	Germany	**Swim seat** (Country of Origin: **China**)		**Drowning** The product may resemble a toy; however, there is a risk of drowning if children play with it unsupervised. Floating seats with leg openings must be used under constant adult supervision and must not have any play elements or overwater structures. The product does not comply with the General Product Safety Regulation nor with the European standard EN 13138-3.	Removal of this product listing by the online marketplace
SR/03032/26	Germany	**Inflatable swim seat** (Country of Origin: **China**)		**Drowning** The product has a sunshade that can catch wind, causing it to drift away. As it has leg openings, the child will not be able to escape. Floating seats with leg openings must be used under constant adult supervision and must not have any play elements or overwater structures. There is a risk of drowning if children play with it unsupervised. The product does not comply with the General Product Safety Regulation nor with the European standard EN 13138-3.	Removal of this product listing by the online marketplace
SR/03033/26	France	**Travel cot** (Country of Origin: **China**)		**Injuries** The product has no shoulder straps or strap between the legs. If it is placed on a raised and/or inclined surface, the child could fall and suffer injuries. Moreover, the edges are insufficiently rigid and the child could tip the product, fall and be injured. The product does not comply with the General Product Safety Regulation.	Recall of the product from end users
SR/03046/26	Germany	**Stair gate** (Country of Origin: **China**)		**Entrapment, Injuries, Strangulation** The gaps in the gate are large enough that a small child could slip through them and become entrapped, which poses a risk of injuries and strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 1930.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/03047/26	UK	**Teething toy** (Country of Origin: **China**)		**Asphyxiation, Choking** The product has a protruding part that is too long (lion-shaped protrusion). A small child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/03054/26	Lithuania	**Squeeze toy** (Country of Origin: **China**)		**Choking** The toy has small parts (end of the banana) that can easily detach. A small child could put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/03057/26	Lithuania	**Plastic doll** (Country of Origin: **China**)		**Chemical** The plastic material of the doll has excessive concentrations of bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured values: 5.1%, 0.01%, 0.02% and 0.01% by weight, respectively). These phthalates may harm the health of children, causing potential damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation.	Withdrawal of the product from the market
SR/03058/26	Poland	**Magnetic toy** (Country of Origin: **China**)		**Injuries** The toy consists of small magnets with high magnetic flux (measured value up to 0.59 T^2mm^2). If a child swallows them, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
SR/03060/26	France	**Teething toy** (Country of Origin: **China**)		**Choking** The product has protruding parts (head and tail) that are too long. Small children may put them in their mouths and choke. The product does not comply with the requirements of the Toy Safety	Withdrawal of the product from the market

				Directive nor with the European standard EN 71-1.	
SR/03083/26	Sweden	**Plastic ball** (Country of Origin: **China**)		**Chemical, Environment** The plastic material of the product has excessive concentrations of dibutyl phthalate (DBP), diisobutyl phthalate (DIBP) and short chain chlorinated paraffins (SCCPs) (measured values up to 0.06%, 44.28% and 3.77% by weight, respectively). DBP and DIBP may harm the health by causing potential damage to the reproductive system and the environment. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer. The product does not comply with the REACH Regulation nor with the Persistent Organic Pollutants (POP) Regulation.	Withdrawal of the product from the market
SR/03084/26	Sweden	**Dance mat** (Country of Origin: **China**)		**Chemical, Environment** The solder in the product contains an excessive concentration of lead (measured value up to 66.6% by weight). The plastic material of the cable has excessive concentrations of dibutyl phthalate (DBP) and short chain chlorinated paraffins (SCCPs) (measured values up to 1.08% and 5.09% by weight, respectively). Lead poses a risk to the environment. DBP poses a risk to human health and the environment. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic	Removal of this product listing by the online marketplace

Safety Gate: the EU rapid alert system for dangerous non-food products

"Safety Gate", the EU rapid alert system (formerly known as "RAPEX"), enables the rapid exchange of information between 31 European countries and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true. The measures taken in the notifying country in order to restrict such products' marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.
