

STC CPSC eFiling

One-stop Compliance Services for Seamless Clearance for US Exports

US Has Officially Implemented Mandatory CPSC eFiling for US Imported Goods!

With effect from 8 July 2026, the vast majority of regulated **consumer products** destined for the US market either for entering commerce or for storing in a warehouse must have their **eFiling electronic data** submitted **before the cargo arrives at the US port**. Failure to comply means the products will be refused at customs clearance.

STC One-stop Compliance Services

Provides comprehensive assistance to facilitate manufacturers and importers to comply with the latest US Customs regulations by obtaining seamless clearance for your products, significantly reducing the risk of border detentions or delays.

Regulated Product Categories & eFiling Submission Requirements

Product Category	Typical Items Included	Testing & Certification Requirements	Key eFiling Pointers
Children's Products	Toys, infant / toddler products, children's apparel, children's furniture, sleepwear, etc.	Conduct mandatory testing by a CPSC-accepted third-party laboratory and obtain a CPC (Children's Product Certificate).	Lab ID, testing dates, manufacturer details, and applicable regulatory citations must be provided.
General Consumer Products	Specified textiles, mattresses, bicycles, helmets, carpets and specific electrical appliances.	Manufacturer / importer obtains a GCC (General Certificate of Conformity) through a reasonable testing programme.	Submission of manufacturer information, compliance standards, and matching product IDs.

STC 4-step Effortless eFiling Guide

1

Product Testing & Evaluation

Submit samples to STC laboratories for CPSC-accepted safety testing.

2

Data Compilation & Certificate Generation

Upon passing tests, STC experts assist in compiling relevant data and generating CPC / GCC certificates.

3

System Data Upload (eFiling)

STC helps accurately upload certification data to the CPSC eFiling database.

4

Customs Clearance & Release

Generate filing proofs to ensure seamless declaration and smooth release during US Customs declaration.
