

Recall Summary – European Toys

EU Safety Gate Alerts (Oct 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00116/22	Poland	Soft toy (Country of Origin: China)		Choking, Suffocation The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. Moreover, the plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing a child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A11/00122/22	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01364/22	Hungary	Rattle toy (Country of Origin: China)		Choking The rattle can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01365/22	Lithuania	Rattle toy (Country of Origin: China)		Choking A small part can easily detach (sticker mirror). Small children may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/01371/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.9 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01372/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 30.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01373/22	Finland	Plush toy (Country of Origin: China)		Choking Small parts (nose, zipper puller) can easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01375/22	Czechia	Plastic toy (Country of Origin: China)		Choking The plastic pieces of the toy can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/01383/22	Poland	Expandable toy (Country of Origin: China)		Choking Small part may easily detach from the fish figurine. Further, the toy expands more than 50% in size when in contact with water. If a child puts it in the mouth or swallows it, the contact with saliva or stomach liquids will cause the figurine to expand, which can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01387/22	Luxembourg	Children's digital camera (Country of Origin: China)		Chemical The charging cable, the plug and the plug top of the product contain an excessive concentration of Dibutyl phthalate (DBP), of bis(2-ethylhexyl) phthalate (DEHP) and Di-'isodecyl' phthalate (DINP) (up to 2.9% by weight). These phthalates may harm the health of children by possibly causing damage to the reproductive system and liver. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/01388/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of di-(2-ethylhexyl) phthalate (DEHP) (up to 11.4 % by weight). This phthalate may harm the health of children by possibly causing damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/01392/22	Poland	Puzzle play mat (Country of Origin: China)		Choking Small parts may easily detach from the mat. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A12/01393/22	Hungary	Toy gun set (Country of Origin: China)		Choking, Injuries The suction cups can be easily detached. A child can put them in the mouth and choke. Furthermore, the kinetic energy of the projectiles is too high. This could cause injuries, especially to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01394/22	Hungary	Yoyo puffer ball (Country of Origin: China)		Choking, Strangulation Small plastic parts (squeaking elements) may easily detach from the toy. A small child may put them in the mouth and choke. In addition, the flexible cord can stretch too long and poses a risk of strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01396/22	Hungary	Toy gun set (Country of Origin: China)		Choking, Injuries The suction cups can be easily detached. If a child puts these in the mouth, it/they can obstruct the airways and the child will choke. Further, the kinetic energy of the projectiles is too high. This could cause injuries, especially to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01397/22	Czechia	Plastic bottle with sweets (Country of Origin: The Netherlands)		Chemical The teddy bear's head contains an excessive concentration bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 18.8% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

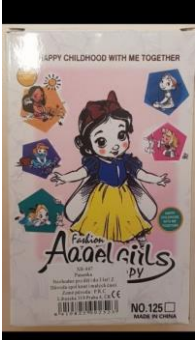

A12/01398/22	Hungary	<p>Toy bow set</p> <p>(Country of Origin: China)</p>		<p>Choking, Injuries</p> <p>The suction cups can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high. This could cause injuries, especially to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.</p>	Import rejected at border
A12/01401/22	Finland	<p>Pranking toy</p> <p>(Country of Origin: India)</p>		<p>Chemical</p> <p>The liquid in the toy (the "disappearing ink"), intended to be spilled on another person, is excessively alkaline (measured pH: 12,5). It may cause chemical burns and injuries if it reaches a person's skin or eyes, or if ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-9.</p>	Import rejected at border
A12/01402/22	Finland	<p>Pranking toys set</p> <p>(Country of Origin: India)</p>		<p>Chemical</p> <p>One of the liquids in the set (the "disappearing ink"), intended to be spilled on another person, is excessively alkaline (measured pH: 12,5). It may cause chemical burns and injuries if it reaches a person's skin or eyes, or if ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-9.</p>	Import rejected at border

A12/01403/22	France	Pull-along toy (Country of Origin: Türkiye)		Choking, Strangulation Small parts can easily detach (wooden splinter and wooden bead). A small child may put them in the mouth and choke. The cord of the toy is too long. It may get wrapped around a child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01408/22	Luxembourg	Rattle toy (Country of Origin: China)		Choking, Damage to hearing, Injuries Small parts can easily detach (ball and square). A small child may put them in the mouth and choke on them. The handle of the rattle toy is too long and if a child puts it in the mouth it can block the airways and cause choking. The sound pressure level of the bell is too high (measured value up to 111.3 dB). This could lead to permanent or partial hearing loss when the product is used. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01410/22	Sweden	Wooden toy (Country of Origin: China)		Choking Small parts (wheels) can easily detach. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01412/22	Finland	Soft toy (Country of Origin: Unknown)		Choking Small parts (plastic eyes, suction cup) may easily detach. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/01414/22	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking The suction cups of the projectiles can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high which could cause injuries, especially to the eyes. In addition, the product contains dibutyl phthalate (DBP) (measured value: up 7.9% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the REACH Regulation or with the European standard EN 71-1.	Import rejected at border
A12/01415/22	Finland	Toy gun set (Country of Origin: China)		Choking The product can easily release small parts (suction cups on bullets). A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
A12/01416/22	Finland	Toy gun (Country of Origin: China)		Choking The product can easily release small parts (suction cups on projectiles). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01418/22	Iceland	Soother holder (Country of Origin: China)		Strangulation The soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Recall of the product from end users

A12/01419/22	Lithuania	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of dibutyl phthalate (DBP) (measured value: 33% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01429/22	Lithuania	Soft toy (Country of Origin: China)		Choking The eyes can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01440/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 29.1% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01454/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured values: 22.36 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01460/22	Austria	Teething toy (Country of Origin: Germany)		Choking The toy may break generating separated small parts. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71 -1.	Stop of sales

A12/01466/22	Cyprus	Plastic doll (Country of Origin: China)		Chemical The arms and the legs of the doll contain an excessive concentration of bis (2-ethylhexyl) phthalate (DEHP) and Di-(butyl) phthalate (DBP)(measured values 2,33% and 0.62% by weight correspondingly).These phthalates may harm the health of children, causing possible damage to the reproductive system or the liver. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/01467/22	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking, Injuries The suction cups of the projectiles can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high which could cause injuries, especially to the eyes. In addition, the suction cups contain an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 3.1% and 12.3% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, neither with the REACH Regulation nor with the European standard EN 71-1.	Import rejected at border

A12/01468/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The doll's head contains an excessive concentration bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 24.2% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01469/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The doll's head contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 44.5% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01470/22	Spain	Children's costume (Country of Origin: China)		Choking A small part (the zipper) can easily detach and a small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01475/22	Finland	Soft toy (Country of Origin: Unknown)		Choking The toy's suction cup, plastic eyes and muzzle may detach, forming small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/01479/22	Norway	<p>Electric insect trap</p> <p>(Country of Origin: Unknown)</p>		<p>Chemical, Environment</p> <p>The solder has an excessive concentration of lead (Pb) (measured value up to 38.08%). Lead poses a risk to the environment. The plastic wire cape of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), Diisononyl phthalate (DINP) (measured values up to 2.30%, 2.18% and 2.44% by weight respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product also contains short chain chlorinated paraffins (SCCPs) (measured value 4%). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. The product does not comply with the REACH Regulation nor with the Regulation on persistent organic pollutants (POP Regulation).</p>	Withdrawal of the product from the market
A12/01481/22	France	<p>Soft toy</p> <p>(Country of Origin: Unknown)</p>		<p>Choking</p> <p>Small parts (metal ring and the soft toy's eyes) may become detached, and the fibrous stuffing is accessible. A child may put any of these in its mouth, and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/01501/22	Bulgaria	<p>Soother holder</p> <p>(Country of Origin: Bulgaria)</p>		<p>Strangulation</p> <p>The soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586</p>	Withdrawal of the product from the market

A12/01503/22	Poland	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 4.23% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/01504/22	Poland	Rattle toy (Country of Origin: China)		Choking The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Oct 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
23-008	USA	Children’s Rings (Country of Origin: China)		Lead Toxic Hazard U.P. Fashion Recalls Children’s Rings Due to Violation of Federal Lead Content Ban The metal base of the ring contains levels of lead that exceed the federal lead content ban. Lead is toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately take the recalled rings away from children and contact U.P. Fashion for information on how to properly dispose of the rings and receive a full refund.
23-009	USA	Early Learning Centre Little Senses Lights & Sounds Shape Sorter Toys (Country of Origin: China)		Choking Hazard Early Learning Centre Little Senses Lights & Sounds Shape Sorter Toys Due to Choking Hazard; Manufactured by Addo Play; Sold Exclusively at Amazon.com The red cube can come apart or detach during use and release the small white ball inside the cube, posing a choking hazard to infants.	Consumers should immediately take the recalled toys away from children, stop using the recalled red cube, discard them, and contact Addo Play for a free replacement red cube. The shape sorter toy can be used without the red cube.
23-010	USA	Children’s Nightgowns (Country of Origin: China)		Burn Hazard Children’s Sleepwear Recalled Due to Violation of Federal Flammability Standards and Burn Hazard; Imported by Jammers Apparel Group; Sold Exclusively at JCPenney The children’s nightgowns fail to meet the flammability standards for children’s sleepwear, posing a risk of burn injuries to children.	Consumers should immediately take the recalled sleepwear away from children and contact Jammers Apparel Group for a full refund. Consumers who purchased the nightgowns will be asked to destroy the garments by cutting them in half and send the recalling firm a photo of the destroyed garment.

23-011	USA	<p>Children's Bathrobes</p> <p>(Country of Origin: China)</p>		<p>Burn Hazard</p> <p>Children's Sleepwear Recalled Due to Violation of Federal Flammability Standards and Burn Hazard; Imported by Ekouaer; Sold Exclusively at Amazon.com</p> <p>The children's bathrobes fail to meet the flammability standards for children's sleepwear, posing a risk of burn injuries to children.</p>	<p>Consumers should immediately take the recalled sleepwear away from children and contact Ekouaer for a full refund. Consumers who purchased the bathrobes will be asked to destroy the garments by cutting them in half and send the recalling firm a photo of the destroyed garment. Ekouaer and Amazon will contact all known purchasers.</p>
23-018	USA	<p>Mittal International Baby Blankets</p> <p>(Country of Origin: India)</p>		<p>Entrapment And Strangulation Hazards</p> <p>TJX Recalls Baby Blankets Due to Choking, Entrapment and Strangulation Hazards</p> <p>The threads in the recalled woven baby blankets can come loose and detach posing choking, entrapment and strangulation hazards.</p>	<p>Consumers should immediately stop using the recalled baby blankets and return them to any HomeGoods, Marshalls or T.J. Maxx store for their choice of a full refund or store credit. Alternately, consumers can contact TJX for instructions on how to submit a photo of the recalled blanket, along with their contact information and written confirmation that they will discard the blanket to receive a full refund or a refund in the form of a store gift card.</p>

23-019	USA	<p>Gel Blaster SURGE 1.0 toy guns</p> <p>(Country of Origin: China)</p>		<p>Fire Hazard</p> <p>Gel Blaster Recalls Gel Blaster SURGE Model 1.0 Toy Guns Due to Fire Hazard</p> <p>The lithium-ion battery pack inside the handle can overheat and ignite, posing a fire hazard.</p>	<p>Consumers should immediately stop using the recalled Gel Blaster SURGE Model 1.0 and contact Gel Blaster to receive a prepaid mailer to return the product and receive a full refund. Gel Blaster is contacting known purchasers directly.</p>
--------	-----	--	---	---	---

23-025	USA	<p>Tesla Cyberquad for Kids by Radio Flyer, Model Number 914</p> <p>(Country of Origin: China)</p>		<p>Crash And Injury Hazards</p> <p>Radio Flyer Recalls Cyberquad for Kids, Due to Violations of Federal Safety Standard for All-Terrain Vehicles (ATVs) and Risk of Injury; Sold Exclusively Online by Tesla</p> <p>The Cyberquad fails to comply with the federal mandatory safety standard requirements for youth ATVs, including mechanical suspension and maximum tire pressure. Additionally, the Cyberquad lacks a CPSC-approved ATV action plan, which is required to manufacture, import, sell, or distribute ATVs. ATV action plans contain numerous safety requirements, such as rider training, dissemination of safety information, age recommendations, and other safety measures. These ATV safety standards are in place to reduce crash and injury hazards, preventing serious injury or death.</p>	<p>Consumers should immediately stop using the recalled Cyberquad and contact Radio Flyer for a full refund. Consumers can obtain a full refund by removing the product's motor controller and sending the controller back to Radio Flyer via a prepaid envelope. Removing the motor controller will permanently disable the Cyberquad. Radio Flyer is contacting all consumers directly. Directions on how to locate, remove and return the motor controller can be found on the Radio Flyer recall website.</p>
--------	-----	---	---	--	---

23-703	USA	Butterfly Net Sets and Army Action Figure Playsets (Country of Origin: China)		Phthalates and Lead Toxic Hazards Juvo Plus Recalls Children's Butterfly Net Sets and Army Action Figure Playsets Due to Violations of Federal Phthalates and Lead Content Bans (Recall Alert) Components of the recalled butterfly net sets and the action figure playsets contain levels of certain phthalates and lead that exceed the federal phthalate and lead content standards. Phthalates and lead are toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately take the recalled butterfly net sets and the action figure playsets away from children and contact Juvo Plus for a full refund of the purchase price. Consumers will be asked to register their butterfly net sets and submit a photo of the disposed product with the nets cut and the handles initialed and dated.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Oct 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19598	Australia	Various Halloween Masks, Headbands, Jewellery, Candles and Decorations		<p>Choking Hazard</p> <p>The products do not comply with the mandatory safety standard for products containing button/coin batteries.</p> <p>The battery compartment is not adequately secured so one button battery in the products may be easily accessible.</p> <p>If young children gain access to button batteries and ingest them, they are likely to suffer severe internal burn injuries, which can result in serious injury or death. Button batteries also pose a choking hazard to young children.</p>	Consumers should immediately stop using the product and store it in a safe place out of reach of children.
2022/19601	Australia	Various Christmas novelty decorations, jewellery, toys and ornaments		<p>Choking Hazard</p> <p>The products do not comply with the mandatory safety standard for products containing button/coin batteries. The battery compartment is not adequately secured so one or more button batteries in the products may be easily accessible.</p> <p>If young children gain access to button batteries and ingest them, they are likely to suffer severe internal burn injuries, which can result in serious injury or death. Button batteries also pose a choking hazard to young children.</p>	Consumers should immediately stop using the product and store it in a safe place out of reach of children.

2022/19617	Australia	<p>LED Flashing Starfish Necklace</p>		<p>Choking Hazard</p> <p>The product does not comply with the mandatory standard for products containing button/coin batteries.</p> <p>The battery compartment is not adequately secured. The three button batteries may be easily accessible.</p> <p>If young children gain access to button batteries and ingest them, they are likely to suffer severe internal burn injuries, which can result in serious injury or death.</p> <p>Button batteries also pose a choking hazard to young children.</p>	<p>Consumers should immediately stop using the product and keep it out of reach of children. Consumers can contact Everything Glows on the contact details below to arrange a refund.</p>
2022/19632	Australia	<p>Anko Teething Llama Natural Rubber</p> <p>Keycode: 43144082</p> <p>Ages 0+</p>		<p>Choking Hazard</p> <p>The cap that seals the mold entry point in one foot, may not be secure and could detach from the teether.</p> <p>If the cap detaches from the teether, it can pose a choking hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately cease using the teether and return it to the nearest Kmart store for a full refund.</p>

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethyl fumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
