

Recall Summary – European Toys

EU Safety Gate Alerts (Dec 2023)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
A11/00131/23	Lithuania	Rattle toy (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A11/00132/23	Lithuania	Toy pistol (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A11/00133/23	Poland	Plastic toy (Country of Origin: China)		Cuts The toy has rough edges which can cause cuts to a child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A11/00135/23	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A11/00136/23	Denmark	Gel blaster (Country of Origin: Unknown)		Choking, Damage to sight The gel beads can be put into the mouth and swallowed by children. As the beads expand, they can cause fatal occlusion of the respiratory track or intestinal blockage. In addition, the kinetic energy of the projectiles fired from the toy gun is too high and can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71.	Stopping of sales
A12/02880/23	Sweden	Inflatable ring (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 23.5% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02888/23	France	Toy crossbow (Country of Origin: Unknown)		Injuries The product can shoot improvised projectiles, such as a pencil, with excessive kinetic energy, which can cause injuries. The product does not comply with the requirements of the Toy Safety Directive, nor with standard EN 71-1.	Recall of the product from end users
A12/02891/23	Lithuania	Toy car (Country of Origin: China)		Choking A small piece can easily detach from the toy. A child could put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Withdrawal of the product from the market
A12/02932/23	Italy	Soap bubble toy (Country of Origin: China)		Microbiological The soap-bubble solution of the toy is contaminated with aerobic mesophilic bacteria Alicyclobacillus acidoterrestris and Alicyclobacillus acidocaldarius (measured value up to 30000cfu/ml). There is a risk of contracting infection as the solution may come in contact with the mouth, hands and eyes. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border

A12/02945/23	France	Rattle toy (Country of Origin: China)		Choking, Entrapment The rattle toy is too long and if a child puts it in their mouth, it can obstruct their airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/02961/23	Lithuania	Doll (Country of Origin: China)		Chemical The product has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 28.1% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02967/23	Lithuania	Toy duck (Country of Origin: China)		Choking The plastic toy duck has small parts that can easily detach (the button of the three-bladed propeller). A small child could put them into their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02968/23	France	Teething ring (Country of Origin: China)		Choking The entire purple part of the teething toy may get stuck in the mouth of a small child who is unable to sit up unaided, causing choking. This product does not comply with the requirements of the Toy Safety Directive, nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/02972/23	Poland	Magnetic balls (Country of Origin: China)		Choking, Injuries The toy is made of small parts (balls) with a high magnetic flux. A child may put them in their mouth and ingest them, which may lead to choking if they enter the airways. If they are swallowed, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A12/02973/23	Lithuania	Soft toy (Country of Origin: China)		Choking The toy bunny has small parts (the plastic eyes). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02974/23	Lithuania	Doll (Country of Origin: United Kingdom)		Chemical The product has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 0.12% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02983/23	Finland	Plush toy (Country of Origin: China)		Choking The plush toy has a small part (nose). Small children may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Import rejected at border
A12/02986/23	Belgium	Children's high chair (Country of Origin: China)		Chemical The protective pad has an excessive concentration of lead (measured value 263mg/kg). Lead is harmful to human health, accumulates in the body and may affect breast-fed or unborn children. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/02988/23	Poland	Magnetic balls (Country of Origin: China)		Injuries The toy is made of small parts (balls) with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product

A12/02991/23	Poland	Slingshot toy (Country of Origin: China)		Damage to sight The material of the projectile is too hard and can cause eye injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/03002/23	Poland	Magnetic toy set (Country of Origin: China)		Injuries The product can easily break into small parts with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/03005/23	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 24.4% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/03006/23	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 33.7% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/03008/23	Ireland	Children's fancy-dress mask (Country of Origin: China)		Burns The product is highly flammable. Children may wear the costume close to an ignition source and the costume may catch fire, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and EN 71-2.	Withdrawal of the product from the market

A12/03018/23	Malta	Toy gun (Country of Origin: China)		Choking, Damage to sight, Injuries The suction cups of the projectiles can be easily detached. A child can put them in their mouth and choke. Moreover, the kinetic energy of the projectiles fired from the toy gun is too high and the leading part is not made of resilient material. This can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/03019/23	Finland	Musical toy (Country of Origin: China)		Strangulation, Suffocation The perimeter of the fixed loop in the back of the dinosaur is too long. This loop can tangle around the neck of a child, leading to strangulation. In addition, the plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/03024/23	The Netherlands	Toy train with wagons (Country of Origin: Czechia)		Choking Small parts from the product (front wheels, rear wheels, tow bar of the letter wagon, as well as parts of the roof) can easily detach. A small child can put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/03025/23	The Netherlands	Puzzle (Country of Origin: China)		Choking Small parts can easily detach (grab button of the puzzle pieces). As a consequence, a small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/03028/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy contains excessive amounts of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and benzyl butyl phthalate (BBP) (measured values up to 30.3%, 0.22% and 0.01% respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/03034/23	Czechia	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 23.3% by weight) and di-n-butyl phthalate (DBP) (measured value up to 0.19% by weight). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/03036/23	Lithuania	Expandable toy (Country of Origin: China)		Choking, Injuries The product expands 50% in size when in contact with water. If a child puts it in their mouth or swallows it, the contact with saliva or stomach liquids will cause the figurine to expand, which can result in occlusion of the respiratory track or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71.	Withdrawal of the product from the market
A12/03076/23	France	Fancy dress costume (Country of Origin: China)		Chemical The product has an excessive concentration of bis(pentabromophenyl) ether (decaBDE) (measured value up to 5205mg/kg). DecaBDE might cause neurodevelopmental behavioural defects and is very persistent and bio-accumulative, posing a risk to the environment and human health. The product does not comply with the Persistent Organic Pollutants (POP) Regulation.	Removal of this product listing by the online marketplace

A12/03082/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 15.2% and 0.24% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/03090/23	Sweden	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances (measured total value up to 1.88mg/kg). Nitrosatable substances can be transformed into nitrosamines which may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Withdrawal of the product from the market
A12/03117/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll has an excessive concentration of bis-2-ethylhexyl phthalate (DEHP) (measured value up to 17.4% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/03120/23	Lithuania	Rattle toy set (Country of Origin: China)		Choking The set of rattles has small parts. A small child could put them into their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/03127/23	Poland	Toy bow (Country of Origin: China)		Choking, Injuries The suction cups of the projectiles can be easily detached. A child can put them in their mouth and choke. Moreover, the kinetic energy of the projectiles fired from the toy gun is too high and the leading part is not made of resilient material. This can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/03134/23	Finland	Soother holder (Country of Origin: China)		Choking, Strangulation The product can easily break, resulting in small parts. A small child may put them in their mouth and choke. Also, the length of the soother cord is too long, which may lead to strangulation. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Destruction of the product
INFO/00167/23	Malta	Soft toy (Country of Origin: China)		Choking A small part can easily detach (suction cup). As a consequence, a small child may put it in their mouth and choke. The product does not comply with requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

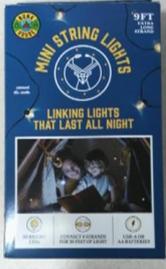

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Dec 2023)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
24-042	USA	Bubba Bull Plush Toys (Country of Origin: China)		Choking Hazard Mary Meyer Recalls Bubba Bull Plush Toys Due to Choking Hazard The eyes of the plush toys can break off, posing a choking hazard to young children.	Consumers should immediately stop using the recalled plush toys, take them away from young children and contact Mary Meyer to receive a free replacement. Upon return or verification of destruction, consumers will receive a replacement Bubba Bull plush, or a different plush of equivalent value.
24-048	USA	Colorful Metal Neodymium Magic Magnetic Balls - 8 colors, 5mm (Country of Origin: China)		Ingestion Hazard XpressGoods Recalls High-Powered Magnetic Balls Due to Ingestion Hazard; Failure to Meet Federal Safety Regulation for Toy Magnet Sets CPSC testing determined the magnetic ball sets do not comply with the requirements of the mandatory federal toy regulation because they contain one or more magnets that fit within CPSC’s small parts cylinder and the magnets are stronger than permitted. When high-powered magnets are swallowed, the ingested magnets can attract each other, or another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.	Consumers should stop using the recalled magnetic balls immediately, take them away from children and contact XpressGoods to receive a prepaid label to return the recalled products for a full refund or store credit. XpressGoods is notifying all known purchasers directly.

24-049	USA	<p>“Wooden Music Shaker” and “DTR M&M Maracas” Baby Rattles</p> <p>(Country of Origin: China)</p>		<p>Choking and Ingestion Hazards</p> <p>Primark Recalls Baby Rattles Due to Risk of Choking and Ingestion Hazards</p> <p>The bottom portion of the recalled baby rattles can detach, posing choking and/or ingestion hazards.</p>	<p>Consumers should immediately take the recalled baby rattles away from children, stop using them and return them to a Primark store for a full refund.</p>
24-056	USA	<p>Model Year 2021-2024 RZR 200 Youth ROVs</p> <p>(Country of Origin: China)</p>		<p>Crash Hazard</p> <p>Polaris Industries Recalls RZR 200 Youth Recreational Off-Road Vehicles (ROVs) Due to Crash Hazard and Risk of Serious Injury</p> <p>The steering system can lock up while in use, posing a crash hazard and risk of serious injury to children.</p>	<p>Consumers should immediately stop using the recalled vehicles and contact an authorized Polaris dealer to schedule a free repair to replace the steering rack assembly. Polaris has notified consumers to stop riding the vehicles and is contacting registered owners directly.</p>
24-064	USA	<p>HEAO 4-in-1 High Chairs</p> <p>(Country of Origin: Max Lead International Ltd., dba Brandline, of Dallas, Texas)</p>		<p>Entrapment and Laceration Hazards</p> <p>Brandline Recalls HEAO High Chairs Due to Risk of Suffocation, Entrapment and Laceration Hazards; Violation of the Federal Safety Standards; Sold Exclusively on Amazon.com</p> <p>The high chairs pose a suffocation risk because they were marketed, intended, or designed for infant sleep, and they have an incline angle greater than 10 degrees in violation of the CPSC’s Infant Sleep Products Rule and the Safe Sleep for Babies Act. In addition, the high chairs pose finger laceration and entrapment hazards as they failed to meet mandatory requirements under the high chair standard.</p>	<p>Consumers should immediately stop using the recalled high chairs and contact Brandline for instructions on how to dispose of the products and receive a full refund.</p>

24-071	USA	<p>Relax 5mm Science Kit, Large Hematite Magnets Magnetic Stones Building Blocks</p> <p>(Country of Origin: China)</p>		<p>Ingestion Hazard</p> <p>High-Powered Magnetic Balls Recalled Due to Ingestion Hazard; Sold Exclusively on Walmart.com through Joybuy</p> <p>The recalled 5mm magnetic ball sets do not comply with the requirements of the mandatory federal magnet regulation because the sets contain one or more magnets that fit within CPSC's small parts cylinder and the magnets are stronger than permitted. When high-powered magnets are swallowed, the ingested magnets can attract to each other, or to another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning, and death.</p>	<p>Consumers should stop using the recalled magnetic balls immediately, take them away from children and contact Joybuy to receive a pre-paid label to return the recalled products for a full refund. Joybuy is notifying all known purchasers directly.</p>
24-729	USA	<p>Vibe Bear Playyard Mattresses</p> <p>(Country of Origin: China)</p>		<p>Suffocation Hazards</p> <p>Vibe Bear Playyard Mattresses Recalled Due to Suffocation Hazards for Infants; Violation of the Federal Safety Regulation for Crib Mattresses; Sold Exclusively on Amazon.com by Vibe Bear (Recall Alert)</p> <p>The recalled mattresses violate multiple provisions of the federal safety regulation for crib mattresses, including the firmness and thickness tests, and are missing warnings and labels. The product poses a suffocation hazard to infants.</p>	<p>Consumers should immediately stop using and destroy the recalled mattresses, and contact Vibe Bear by email to receive a full refund and for directions on how to dispose of the mattresses. Vibe Bear and Amazon are contacting all known purchasers directly.</p>

24-730	USA	<p>Bugaboo Dragonfly Seat Strollers</p> <p>(Country of Origin: China)</p>		<p>Injury Hazard</p> <p>Bugaboo Recalls Dragonfly Seat Strollers Due to Injury Hazard (Recall Alert)</p> <p>In “parent-facing” mode, the backrest of the seat can move downward, placing the infant in a negative recline. In this situation, an unrestrained infant could tumble from the seat, posing an injury hazard.</p>	<p>Consumers should immediately stop using the recalled seats and contact Bugaboo for a free replacement stroller seat. Bugaboo is contacting all known retailers and purchasers directly.</p>
24-731	USA	<p>Moonsea Pack and Play Mattresses</p> <p>(Country of Origin: China)</p>		<p>Suffocation Hazard</p> <p>Moonsea Pack and Play Mattresses Recalled Due to Suffocation Hazard for Infants; Violation to the Federal Safety Regulation for Crib Mattresses; Sold Exclusively on Amazon.com by Moonseasleep (Recall Alert)</p> <p>The recalled mattresses violate multiple provisions of the federal safety regulation for crib mattresses, including the thickness test and missing warnings and labels. The product poses a suffocation hazard to infants.</p>	<p>Consumers should immediately stop using the recalled pack and play mattresses, and contact Moonseasleep to receive a full refund and for directions on how to dispose of the mattresses. Moonseasleep and Amazon are contacting all known purchasers directly.</p>
24-733	USA	<p>Bunkhouse and Lotsa LITES! Connectable Mini String Lights</p> <p>(Country of Origin: China)</p>		<p>Burn and Fire Hazards</p> <p>Bunkhouse and Lotsa LITES! Mini String Lights Recalled Due to Burn and Fire Hazards; Imported by DM Merchandising (Recall Alert)</p> <p>The bulbs can overheat when the string lights are plugged directly into an outlet, presenting burn and fire hazards.</p>	<p>Consumers should immediately stop using and unplug the recalled string lights and contact DM Merchandising for a full refund and information on how to take part in this recall. DM Merchandising is contacting all known purchasers directly.</p>

24-737	USA	<p>Litti City Premier Doctor Playset and Teacher Purse Set, Litti Pritti Stylist Handbag Set, and Prextex Slime Eggs</p> <p>(Country of Origin: China)</p>		<p>Toxicity Hazard</p> <p>Litti City and Litti Pritti Dress-up Playsets and Prextex Slime Eggs Recalled Due to Violations of Federal Phthalates and Lead Content Bans; Imported by Perch, Amusty and Bingo Deals (Recall Alert)</p> <p>All the dress-up playsets and the slime eggs contain levels of certain phthalates that exceed the federal phthalate standard. In addition, the Litti City teacher purse dress-up playset, the Litti Pritti handbag playset, and the slime eggs contain levels of lead that exceed the federal lead content ban. Lead and phthalates are toxic if ingested by young children and can cause adverse health effects.</p>	<p>Consumers should immediately stop using the recalled playsets and slime eggs and contact Perch for more information on how to dispose of the product and to get a full refund after providing proof of destruction. Perch, Amazon and Walmart will contact all known purchasers directly.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Dec 2023)

PRA No.	Notifying Country	Product / Description	Product Photo	Hazard / Risk	Remedy
2023/19989	Australia	Wooden musical toy that contains a bell inside.		<p>Risk of Choking, Suffocating or Death</p> <p>Affected products do not comply with the mandatory standard for toys for children up to and including 36 months of age.</p> <p>The wooden frame can break which can dislodge the bell inside.</p> <p>There is a risk of choking, suffocation or death to young children if they put the dislodged parts into their mouth.</p>	<p>Consumers should stop using the toy immediately and keep out of reach of children.</p> <p>Consumers should return the product to the place of purchase or to Romper & Co for a full refund.</p> <p>For more information, consumers can contact Romper & Co on phone 0435 021 583 (11:00 am - 5:00 pm, Monday to Friday) or via email on hello@romperand.co</p>
2023/19999	Australia	Magic fairy wand toy powered by button batteries. Contains 3x AG13 button batteries.		<p>Risk of Choking or Serious Injury</p> <p>The product does not comply with the mandatory standards for products containing button/coin batteries. The button/coin batteries are not adequately secured and are accessible to young children. The product does not include the required warning information.</p> <p>There is a risk of choking or serious injury if young children gain access to the button/coin batteries and swallow or place them inside their body.</p> <p>Consumers may be unaware that the product contains button batteries.</p>	<p>Consumers must stop using the toy immediately and keep out of reach of children. Consumers should return the toy to Price Savers, Westfield West Lakes to receive a full refund.</p>

2023/20003	Australia	<p>Silicone fist/hand shaped yo-yo ball toy with silicone cord.</p>		<p>Risk of Death or Serious Injury From Strangulation</p> <p>There is a permanent ban on yo-yo water balls (and similar products)</p> <p>This product has an elastic/silicone cord which extends further than the maximum allowed length of 500mm set by the ban.</p> <p>There is a risk of death or serious injury from strangulation. The cord can stretch and wind around a child's neck, especially if swung around the head.</p>	<p>Consumers should stop using the toy immediately and cut the cord. Return to the place of purchase for a full refund.</p> <p>For more information contact Toymate on customerservice@toymate.com.au or by phone on 1300 869 628.</p>
2023/20004	Australia	<p>Promotional light-up sensory glow tubes in multiple colours.</p> <p>Distributed at Santa photos sets in the following shopping centres in QLD:</p> <p>The Pines Elanora – 16 November 2023 to 11 December 2023</p> <p>Capalaba Central shopping centre – 25 November 2023 to 11 December 2023</p> <p>Wynnum Plaza – 30 November 2023 to 11 December 2023</p> <p>Each tube contains 3 button batteries (LR44).</p>		<p>Risk of Choking or Serious Injury</p> <p>The product does not comply with the mandatory standards for products containing button/coin batteries. The button/coin batteries are not adequately secured and are accessible to young children. The product does not include the required warning information.</p> <p>There is a risk of choking or serious injury if young children gain access to the button/coin batteries and swallow or place them inside their body.</p> <p>Consumers may be unaware that the product contains button batteries.</p> <p>Incidents have occurred where children pulled the tubes apart making the button batteries accessible.</p>	<p>Consumers must stop using the glow tubes immediately, keep out of reach of children and dispose of the glow tubes safely.</p>

Australian Product Safety System

The Australian product safety system is set up to maximize the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethyl fumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
